CAN YOU COOK?

Tom is like any other teenager. He goes to school, does his homework, meets his friends, enjoys doing sport and watching TV.

But between 5.30 and 6.30 from Monday to Friday, Tom does something different. He cooks dinner for all the family: mum, dad, younger brother Joe and older sister Emma. He loves the time all members eat together at night.

Tom's mum says: "I think it's important for teenagers to learn how to cook. Maths and English, all courses at school, are important, of course, but they need other skills too to help them in today's world. First, I taught Tom how to cook easy meals like pizza or egg and chips. Then he started using recipes in my cookery books. Yesterday he made vegetable soup. It was very good!"

Tom says: "I love cooking and I think I'm really good at it. None of my friends cook. I don't know why, it isn't difficult and it's great fun! Maybe I can tell them how to cook someday."

In the past, Tom didn't help out at home and his mum wasn't very happy with him. Today, things are different and she is very happy when he can cook well.

Sorn: I'm actually the only one in my family who went to international school since kindergarten. My dad is a businessman, so he said English is very important. So I started school when I was two.

Nam: Did you learn English only at school, or were there other times that you practiced your skills?

Sorn: I just learnt English at school. And at home we spoke Thai. So I mostly spoke English at school, but at home I would have small conversations with my dad in English too.

Nam: You're now a very successful singer and part of the K-Pop group CLC. How important is it for you to know two or more than two languages?

Sorn: Well, it's very important for me and my band to speak another language because as K-Pop singers, we go to events overseas all the time. And I can know how to speak English when I meet fans in real life.

An: Well, I think polar bears live mainly on the sea ice of the Arctic. The Earth is getting warmer and warmer, so the ice melts more quickly. That's why their habitat is badly influenced.

Lam: That's right, global warming causes a lot of suffering to polar bears. They have to swim too far for food, and sadly, most of them drown from exhaustion and hunger.

An: Therefore, we all need to reduce global warming by simple actions such as using less air conditioning, planting more trees, driving less, and so on.

Lam: Illegal hunting for polar bears must be banned as well. The animals are hunted both for their meat and thick furry white pelts.

An: I agree with you. Commercial trade should be punished heavily. That's so terrible for these beautiful animals!

Lam: Animals are just like us; they have the right to live safely. Anyway, thank you, An. You are so helpful. See you later...
