India is currently experiencing a heat wave, with temperatures in some parts of the country **reaching** as high as 46 degrees Celsius (114.8 degrees Fahrenheit). The heat wave is having a disastrous impact on people across India. Thousands of people have been hospitalized with heat-related illnesses, and at least 170 people have died. The boiling heat is especially hard on old adults and young children. Hospitals are complaining about overcrowding, exhausted medical staff, and frequent power cuts. The heat wave is also disrupting daily life, with schools and businesses being closed in some areas. Moreover, the heat causes stress for animals and has a negative impact on their health and milk production in cows. Climate experts expect the weather extremes to continue in India. The government of India is taking steps to minimize the impact of the heat wave. These measures include providing drinking water to people in affected areas and setting up cooling centers. People are advised to stay indoors in air-conditioned spaces, drink plenty of water, dress in loose-
