Read the following passage and mark the letter A, B, C, or D to indicate the correct word or phrase that best fits each of the numbered blanks from 5 to 11.

Last Sunday evening, the streets of our city went dark. This usually happens when there is a problem with the electricity, but this time the lights were turned off to allow people to go outside and (5) _____ the stars. This is often impossible in a city because of light pollution.

Light pollution is when light from streetlamps or buildings makes the night less dark. There are (6) _____ reasons why this is a problem. Animals sleep less because they think it is still daytime. Birds that fly to warmer countries in the autumn need to see the moon and stars to find their (7) _____, but light pollution makes this difficult. Insects and birds in cities often fly towards lights at night, crash into buildings and die.

Light pollution is also bad for us. It can stop us (8) _____ sleeping and give us headaches. Also, we don't see the same sky (9) _____ people in the past did. This means we never see one of the greatest sights in the world: the millions of stars in our galaxy, the Milky Way. Hundreds of thousands of people have never seen it in their lives.

(10) _____, it is not difficult to do a few things to reduce light pollution: we can all turn lights off when we don't need them and we can (11) _____ our windows with curtains. If there is less light pollution, we will once again be able to enjoy the beauty of the night sky.

Question 5: A. turn up B. look at C. look after D. turn on

Mark the letter A, B, C or D to indicate the word whose underlined part differs from the other three in pronunciation in each of the following questions from 12 to 13.

- Question 12:** A. clocks B. coats C. dreams D. maps
Question 13: A. stay B. care C. gade D. face

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions from 14 to 19.

Some doctors think that you should drink a glass of water each morning. You should drink this water before doing anything else. The temperature of the water should be similar to body temperature, not too hot nor too cold.

Why should you drink this water? Water helps your body in many ways. It helps clean out your kidneys. It prepares your stomach for digestion. Water can also help your intestines work better. After drinking water, the intestines can more easily take out nutrients from our food. Water also helps us go to the bathroom more easily.

Scientists know that people **take in** 1,600 milliliters of water each day. But don't drink all of that water at one sitting. If you do, your kidneys will have to work much harder to eliminate it. It's better to drink some in the morning and some in the afternoon. Some people think it's better to drink between meals and not during meals. They think water makes the juices weaker. These can interfere with normal digestion.

Are you drinking enough water every day? Check the color of your urine. If **it** is light yellow, you are probably drinking enough. If your urine is very dark yellow, you probably need to drink more water. A little more water each day could make you much healthier!

Question 14: What would be the best title for the passage?

- A. The Importance of Water B. The Amount of Water
C. The Temperature of Water D. The Color of Water

Question 15: According to paragraph 2, the writer says water can be helpful to all of the followings EXCEPT _____.
