That's why I love playing them so much.

2. \_\_\_\_\_ My interest in computer games has taught me a lot about computer graphics. I want to study computing at college, and learn how to design and program games. Eventually, I'd like to start my own software company, creating and testing new games. That way, I could spend all day doing what I love most.

3. \_\_\_\_\_ Computer games are interesting because they often contain stories and characters. The games are getting better all the time, but they are also getting more expensive. The only thing I don't like about my hobby is the cost! New games are often about \$50.

4. \_\_\_\_\_ Some of my friends from school are interested in computer games too. We normally meet at my house in the evenings and play for a few hours. We sometimes play at weekends, but if the weather's good I prefer to go cycling or play basketball instead.

5. \_\_\_\_\_ I first became interested in computer games about four years ago. I was staying with my cousin for the weekend. He had some games and he taught me how to play them. When I got home, I decided to save all my money for buying games. Now I've got about twenty different games.
