- To help Ss practise getting attention and interrupting.

b. Content:

- Task 1: Listen and complete the conversations with the expressions in the box. Then practise them in pairs (p.84)
- Task 2: Work in pairs. Use the models in Task 1 to make similar conversations for these situations. One of you is A, the other is B. Use the expressions below to help you. (p.84)

c. Expected outcomes:

- Students can use appropriate language to get attention and interrupt in certain situations.

d. Organisation

TEACHER AND STUDENTS' ACTIVITIES	CONTENTS
<p>Task 1: Listen and complete the conversations with the expressions in the box. Then practise them in pairs. (6 mins)</p> <ul style="list-style-type: none"> - Ask Ss to read through the two incomplete conversations. Check comprehension by asking questions, e.g. <i>Who are the speakers? What are they talking about? What is the difference between conversation 1 and conversation 2?</i> - Students listen to the recording. - Give Ss a few minutes to read the expressions in the box and check understanding. - Students complete the conversation with words in the box. - In stronger classes, encourage Ss to fill in the gaps based on context clues. - Have Ss listen and complete the conversation with the words from the box. - Check answers by asking two Ss to read out the conversations. - Have Ss underline expressions used to get attention (<i>Hey, May I have your attention</i>) and interrupt (<i>Do you mind, I'm sorry for interrupting</i>) - Put Ss in pairs and have them practise the conversation. - Students practise the conversation in pairs. - Invite some pairs to role play the conversation in front of the class. 	<p>Answer key:</p> <ol style="list-style-type: none"> 1. C 2. B 3. D 4. A
<p>Useful expressions (7 mins)</p> <ul style="list-style-type: none"> - Teacher gives students a list of expressions which are mixed together. Ss have to classify them into 2 groups: get attention and interrupt. - Ss work in groups to do the task. - Teacher asks Ss to classify the expressions into two groups. - Ss take notes into their notebooks. - Check as a class. - T asks if Ss can add some more expressions. 	<p>* Getting attention</p> <ul style="list-style-type: none"> • May I have your attention, please? • Could I ask you a question? • Can I have a few seconds/a moment of your time? • Look!/Listen!/Watch! • Excuse me! • Sorry to bother you. • Hey! <p>* Interrupting</p> <ul style="list-style-type: none"> • I'm sorry for interrupting/to interrupt,

	<p>but I don't quite understand ...</p> <ul style="list-style-type: none"> • Sorry for the interruption, but could you(repeat) ... • This will only take a minute. • Would you mind (telling me) ... • I apologise for the interruption, but I have an important question about ... • Pardon me/Excuse me, I have ... • Hold on! • Just a second
<p>Task 2: Work in pairs. Use the models in Task 1 to make similar conversations for these situations. One of you is A, the other is B. Use the expressions below to help you. (6 mins)</p> <ul style="list-style-type: none"> - Ask Ss to read through the situations and check understanding. Ask them if they have been in similar situations, e.g. if they go to a museum and robot exhibition, see a friend and want to get his/her attention, how they can interrupt a speaker in a talk on AI. - Make a plan for the conversation. - Have Ss work in pairs. In weaker classes, underline words and phrases in the model conversation that Ss can replace with information from the new situations. You can also write some prompts on the board. - Practise the role-play conversation, based on the two situations. - Go through the Useful expressions in the box and remind Ss to use them in their conversations. - Swap the role and continue practising. - Perform in front of class. - Give Ss a few minutes to plan their conversations. Have them write down some prompts to help them, e.g. <i>how they are going to get the attention of a friend, how they are going to interrupt a speaker to ask a question...</i> - Walk around the class and provide help if needed. - Call on some groups to role play their conversations in front of the class. Praise for good effort, appropriate use of the expressions for getting attention and interrupting, clear pronunciation and fluent delivery. 	<p>Suggested answer:</p> <p>1.</p> <p>A: Hey, Long. B: Oh, hi, Mai. I didn't expect to see you here. It's a great exhibition of 21st-century robots, isn't it? A: Yes, it is. Oh look! There's also a VR tour of the robots of the future. B: Sounds exciting! Shall we do the tour together? A: Yes, good idea.</p> <p>2.</p> <p>A: ... So I have talked about the use of AI in education. Now, let's move on to applications of AI in our home. B: Sorry for interrupting you, Dr Peterson, but before you start the new topic, could I ask a question? A: No problem. Go ahead. B: Thank you. Would you mind telling us more about the challenges of using AI chatbots in the classroom? A: That's a good question. First, chatbots can distract</p>

students in the classroom. Second, they can make you dependent on technology. Finally, they may provide wrong answers if there are errors or bugs in the software.

e. Assessment

- Teacher checks students' answers as a whole class.

3. ACTIVITY 2: CLIL (15 mins)

a. Objectives:

- To help Ss learn about the evolution of robots;
- To help Ss relate what they have learnt about robots to the situation in Viet Nam.

- Task 2. Work in groups. Discuss the questions. (p.85)

c. Expected outcomes:

- Students understand the meaning of words, memorise the information, and relate what they have learnt about AI robots in the world to the context of their own country.

d. Organisation

TEACHER AND STUDENTS' ACTIVITIES	CONTENTS
<p>Task 1: Read the text and complete the timeline showing the evolution of robots. (10 mins)</p> <ul style="list-style-type: none"> - Ask Ss some questions to find out what they already know about the topic, e.g. <i>Have you ever had/met a robot? When did the first robot appear? How have robots changed?</i> - Ask Ss what they want to know about the topic. Write their questions on the board, e.g. <i>What type of robots were first introduced? In which field are robots being used? Can you list some examples of robots?</i> - Students answer questions to find out what they already know about the topic. - Put Ss into pairs. Ask them to read the text and complete the timeline illustrating the evolution of robots with suitable numbers or words. Walk round the class and offer help, explaining unfamiliar words or answering questions. - Check answers as a class calling on pairs to write their answers on the board. Have Ss provide evidence from the text for each answer. - Students answer questions to find out what they already know about the topic. - Go back to the questions on the board, i.e., the things Ss wanted to know about the topic. Ask which of the questions they can answer 	<p>Answers:</p> <ol style="list-style-type: none"> 1. 1959 2. Kismet 3. 2005 4. visual recognition

now and cross them out. Assign the rest for homework.

Task 2: Work in groups. Discuss the questions. (5 mins)

- Ask Ss to work in groups to discuss the two questions.
- In weaker classes, ask questions to brainstorm ideas as a class, e.g. *Is AI being used in Viet Nam? What are they?*
- Students work in groups to discuss the question.

- To answer the first question, encourage Ss to think of some fields which are applying AI, e.g: education (*Google search, ChatGPT, Grammarly*), workplace (*facial recognition, Auto-answer box*), home (*robot cleaner, facial recognition*), entertainment (*VR*). Then they come up with some ideas about how robots and AI will be in the future (*AI will replace tedious or dangerous tasks, AI will treat, and largely eliminate, neurological disorders like Alzheimer's, Parkinson's, most birth defects, and spinal cord injuries as well as blindness and deafness, robots will be controlled by our minds*)
- Invite some groups to present a summary of their discussion to the class.
- Students share their ideas in front of class.

Suggested answers:

Artificial intelligence (AI) and machine learning have become very popular in Viet Nam. For example, AI apps such as Google search, ChatGPT, and Grammarly, are used in education, while many facial recognition and auto-answer apps are used in the workplace. Facial and speech recognition apps are also used at home. Robot cleaners are becoming popular as well. Virtual reality is also used in the entertainment industry.

In the future, AI will be used in healthcare a lot more. It will also help diagnose and treat neurological disorders like Alzheimer's and Parkinson's. It will also be used to detect birth defects in early pregnancy. Moreover, AI will be able to decode brain activities and change it to continuous text, which means it can translate for people who struggle to speak. There will be a lot more advanced robots in all industries and they will take up most of the manual jobs. In education, robots will be capable of teaching all subjects.

e. Assessment

- Teacher corrects the students as a whole class.

5. CONSOLIDATION (3 mins)**a. Wrap-up**

- T asks Ss to talk about what they have learnt in the lesson.

b. Homework

- Do exercises in the workbook.
- Prepare for Lesson 8 – Looking back and project.
