**CRICKET**

Cricket is an English game. People from most other countries think it is very, very slow, but the English think it is exciting.

There are two teams with eleven players on each team in a cricket match. They play outdoors on a field. They play around two wickets. A wicket is three sticks in the ground with two sticks across them at the top. The wickets are twenty meters apart.

One player is a bowler. He stands by one wicket and throws a ball at the other wicket. He tries to hit one of the top sticks and make it fall to the ground.

Another player is a batsman. He holds a stick called a bat. He stands behind the second wicket. He tries to hit the ball before it hits the sticks. If he hits the ball, he runs to the other wicket. Sometimes he can run from one wicket to the other several times until a player in the field catches the ball and throws it back to the wickets.

An important match can continue for 4 or 5 days. The players make hundreds of runs. Cricket began in England in the 1300s. It became a major sport in the 1700s. Englishmen taught the game to people in their colonies. Today cricket is still popular in most of those countries.

Write about a person you love or admire

My mother is a person I admire most. She devoted a lot of time and energy to the upbringing of my two brothers and I. Despite working hard, she always made time to teach us many useful things which are necessary and important in our later lives. Moreover, she is a good role model for me to follow. She always tries to get on well with people who live next door and help everyone when they are in difficulties, so most of them respect and love her. I admire and look up to my mother because she not only brings me up well but also stands by me and gives some help if necessary. For example, when I encounter some difficulties, she will give me some precious advice to help me solve those problems. She has a major influence on me and I hope that I will inherit some of her traits.
