Hobbies are practiced for interest and enjoyment, rather than financial reward. Examples include collecting, creative and artistic pursuits, making, tinkering, sports and adult education. Engaging in a hobby can lead to acquiring substantial skill, knowledge, and experience. However, personal fulfilment is the aim.

What are hobbies for some people are professions for others: a game tester may enjoy cooking as a hobby, while a professional chef might enjoy playing (and helping to debug) computer games. Generally speaking, the person who does something for fun, not remuneration, is called an amateur (or hobbyist), as distinct from professional.

An important determinant of what is considered a hobby, as distinct from a profession (beyond the lack of remuneration), is probably how easy it is to make a living at the activity. Almost no one can make a living at cigarette card or stamp collecting, but many people find it enjoyable; so it is commonly regarded as a hobby.

Amateur astronomers often make meaningful contributions to the professionals. It is -not entirely uncommon for a hobbyist to be the first to discover a celestial body or event.

In the UK, the pejorative noun anorak (similar to the Japanese 'otaku' meaning a geek or enthusiast) is often applied to people who obsessively pursue a particular hobby that is considered boring, such as train spotting or stamp collecting.

- A. people can make a living at it
- B. people find it enjoyable
- C. people find it profitable
- D. people find it easy to pursue

4. Which of the following is not called 'celestial bodies'?

- A. the Galaxy
- B. planet
- C. stars
- D. the sun

5. What can be inferred from the last paragraph?

You should say

What it is

When you do it

Where you do it

And explain how you feel about it

Câu trả lời tham khảo từ web:

(What it is):

My family is good at cooking since we always think it is better to have home cooked food, and usually have big feasts on the weekends. However, I would like to talk about the time when my family gathered to make Chung cake for the Tet holiday.

(When you do it)

The Lunar New Year, or Tet, was a very special traditional holiday in my country. It was probably my favourite holiday when I was a small boy, as my family did a lot of activities to celebrate this occasion. Among them, making Chung cake excited me the most. Traditionally, we always made Chung Cake two days before the Lunar New Year.

(Where you do it)

We had a big yard behind our house, and the Chung cake was made there, from preparing ingredients, to shaping the cake to cook it. I still remember having helped my parents prepare the cake's ingredients while my elder brother was in charge of shaping the cake. And then, my father lit a small fire to boil the cake overnight. It was perhaps the only time of the year when I was allowed to stay up late.

(And explain how you feel about it)

In recent years, my family has not had enough time to make Chung cake on our own. However, a ready-made Chung cake that we buy from a local market cannot bring the same special feelings and replace the taste of a Chung cake made at home. I hope that my family can continue our tradition in the coming years.

Part 1:

How do Americans spend their free time? Here are a few facts from Leisure Trak®, which measures the leisure and recreational habits of Americans 16 years old and over.

The top four leisure activities of all Americans are: watching television, reading, socializing and shopping. Using computers, eating out, watching spectator sports, and reading the newspaper also ranked high.

81 percent of Americans enjoy watching television at least once a day.

57 percent watch TV for less than two hours, but eight percent admit watching it for five or more hours per day. The top five recreational activities for women are walking, aerobics, exercising, biking, and jogging. The top five for men are golf, basketball, walking, jogging, and biking.

Part 2:

My hobby is reading. I read story books, magazines, newspapers and any kind of material that I find interesting.

My hobby got started when I was a little boy. I had always wanted my parents to read fairy tales and other stories to me. Soon they got fed up with having to read to me continually. So as soon as I could, I learned to read. I started with simple ABC books. Soon I could read fairy tales and stories. Now I read just about anything that is available.

Reading enables me to learn about so many things. I learned about how people lived in bygone days. I learned about the wonders of the world, space travel, human achievements, gigantic whales, tiny viruses and other fascinating things.

The wonderful thing about reading is that I do not have to learn things very hard way. For example, I do not have to catch a disease to know that it can kill me. I know the danger so I can avoid it. Also I do not have to deep into the jungle to find out about tigers. I can read all about it in a book.

Books provide the reader with so much information and facts. They have certainly helped me in my daily life. I am better equipped to cope with living. Otherwise I would go about ignorantly learning things the hard way.

So I continue to read. Besides being more informed about the world. I also spend my time profitably. It is indeed a good hobby.
