Nomophobia, short for "no-mobile-phone phobia," is a modern phenomenon that affects many people in today's digital age.

What is nomophobia? It is the irrational fear of being without one's mobile phone or being unable to use it. This condition can cause **anxiety** and distress, and <u>it</u> highlights the profound impact mobile devices have on our lives. The fear of losing or being separated from one's phone is a growing concern. Some common situations that trigger nomophobia include misplacing one's phone, running out of battery, or losing network signal. The fear intensifies when people imagine not having their phones to contact friends and family, access the internet, or use GPS for navigation.

Who easily suffers from nomophobia? <u>Nomophobia is not limited to any age group and can affect</u> <u>individuals of all backgrounds</u>. It often becomes evident when people experience panic or anxiety when they forget their phones at home or are unable to use them temporarily. Symptoms may include restlessness, rapid heartbeat, sweating, and a sense of insecurity.

The roots of nomophobia lie in the convenience and connectedness that mobile phones provide. These devices have become integral to our daily lives, serving as not just communication tools but also cameras, entertainment hubs, personal organizers, and more. This dependence on mobile phones can lead to a feeling of **vulnerability** when separated from them.

Question 23. Which of the following is not mentioned as nomophobia?

Fashion in the 1960s reflected the cultural and political upheaval of the time. The hippie and counterculture movement **gave rise to** accessories like Pocahontas-style headbands and medallions worn around the neck. Hippies wore long, loosely fitting clothing, often in natural fabrics. Hemlines rose as Mary Quant popularized the miniskirt and hot pants in her lines for JC Penney. And mod fashion, with brightly colored space-age geometric patterns, shift dresses and colored tights became the mainstream. Both miniskirts and mod-shift dresses were worn with knee-high go-go boots.

[A] During the 1970s, the loose-fitting hippie clothes of the prior decade gave way to exotic fabrics and bell-bottom jeans for men and women. Hemlines continued to rise and hot pants continued <u>their</u> popularity, reflecting the flashy style of the decade. However, the 1970s also saw the popularity of a longer hemline, from mid-calf to ankle-length. **[B]** Women wore peasant-style clothing, especially blouses with off-the-shoulder necklines and lace trim, with their jeans or skirts. **[C]** Disco fashion emerged, featuring bright patterns and tightly fitting clothing meant to show off the body. Platform shoes <u>elevated</u> their wearer, male or female, anywhere from two to four inches or more. **[D]**

The 1980s saw another fashion upheaval. Angst-ridden punks wore Dr. Marten and steel-toed army boots, chains, tartan patterns, and bondage pants. Punks focused more on their hair during this period, dying, teasing and chopping their hair into asymmetric styles that seemed to defy gravity. Women—and men—experimented with heavy eyeliner in a variety of colors. Women wore neon colors, jelly shoes, tight jeans, leggings, leg warmers and oversized sweatshirts. <u>Menswear-inspired looks also became popular for both sexes</u>. Men wore 'power suits,' named so for their price, which made these suits a reflection of the wealth of the wearer. Women's jackets featured big shoulder pads that made the shoulders appear higher and larger, similar to the male silhouette.

1990's fashion was far more subdued than the garish, wild styles of the 1980s. Bands like Nirvana influenced the grunge look, which featured rock-concert tee shirts under plaid flannel shirts, jeans and long, greasy hair. Overalls were worn by both sexes, either with one or both shoulder straps unhooked. The punk style of the 1870s and 1980s evolved into the goth fashion trend, which featured black clothing, black boots and studded bracelets in the style of bands like Nine Inch Nails and Marilyn Manson.

Aaron Levie loves tinned spaghetti. He lives in a small apartment. At the age of 27, his biggest **luxury** is his smartphone. If you met him, you probably wouldn't realise that he is a multi-millionaire. However, as cofounder and CEO of Box, a successful IT company, he is worth about \$100 million. He loves his job and works hard. Most days, he does not leave the office until after midnight.

Levie and his friend Dylan Smith started Box in 2005 while still at university. It offered a better way of storing data, cloud storage. TikTok @thptqg2025

Like most new businesses, Box did not bring in much <u>income</u> at the start. When it began, Levie and Smith looked for funding, but couldn't find any investors. Back in 2005, cloud storage was quite a new idea. For that reason, nobody wanted to risk lending them money. <u>Eventually, a well-known entrepreneur called Mark</u> <u>Cuban agree to put money into Box.</u> Soon, Box grew quickly and had contracts with many of the biggest companies in the USA.

Now, Box has grown a lot and so have its profits, making Levie a multi-millionaire. Most people of his age would lead an extravagant lifestyle if they had so much money. But Levie says that it doesn't interest him. "I'm certainly not into money." He only goes to expensive restaurants if an important customer wants to eat there. Otherwise, he has lunch meetings in burger bars. "And I still like tinned spaghetti. I'd be happy if I had it every day."

A. Paragraph 1B. Paragraph 2C. Paragraph 3D. Paragraph 4

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions

In today's world, we have different kinds of media available to us at all times. **[I]** However, did you know that the history of media actually goes back millennia? **[II]** By this definition, we can say with confidence that human beings created the first type of media around 64,000 years ago when we first began painting simplistic symbols on the walls of caves.**[III]** Since then, the more we have **evolved**, the more advanced our media have become.**[IV]**

According to experts, it was sometime around 3,400 BC when human beings first began utilising written language as a means of communication. For generations, apart from verbal communication, <u>they</u> had to write everything manually until the mid-1440s. <u>It was Johannes Gutenberg who revolutionised media when he created an invention called the printing press.</u> This marked the beginning of what we now call "mass media": Gutenberg's innovative invention made print media like books, newspapers and magazines at a large scale and much information with a wider audience than ever before.

Several hundred years after the invention of the printing press, during the 19th century, we created cameras *TikTok* @*thptqg2025* 9

and later, the radio. The invention of the radio began the age of broadcast media, and the development of television **<u>swiftly</u>** followed it. This allowed many people to watch fascinating movies, programmes and documentaries, all of which remain popular today.

In the 2000s, we saw the rise of digital media. Now, we visit web pages, listen to podcasts, stream music and communicate on social media using our smartphones. We even use QR codes to share information instantly. We have come a long way, and so have the ways we communicate!

AVICII'S LIFE AFTER REHAB

Once he completed his month in rehab, Avicii seemed to have a new outlook on life. He was meditating regularly, reading about the collective unconscious, and got a puppy. After not performing for a long period of time, he returned to the stage in 2016 at Miami's Ultra Music Festival. It was announced a few days after this gig that he would not be performing live anymore. Avicii chose to not perform so that he could focus on bettering his mental health.

Despite appearing to have <u>new-found stability</u>, Avicii still struggled to deal with his mental health issues. While continuing to suppress the anxiety and depression that he frequently felt, Avicii also started to become disinterested in his music career. During this time, he was smoking and drinking on occasion which may have *TikTok @thptqg2025* 13 resulted in a resurgence of his disassociation feelings.

He told Tereza Kacerova, his girlfriend at the time, "What if everyone around me is just a projection in my mind? Sometimes I just think these things. About how nothing really matters."

Avicii started to focus heavily on meditation which he found to be helpful in clearing the "nonsense" from his mind. He believed that a deep form of meditation taught by Maharishi Mahesh Yogi was a way to exercise his brain which he had decided would lead to his happiness. Despite this form of meditation typically being done in 20 minute increments, Avicii **would sometimes spend full days meditating** in an attempt to reach enlightenment faster.

Read the following passage about the urban shift and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

DEPENDENCE ON TECHNOLOGY: TIME FOR CHANGE!

[I] Los Angeles dancer, Brian Perez, was eating out with his friends one evening when suddenly everyone went quiet. [II] To his horror, he saw that the reason for this was that people were checking their phones. [III] What if they all put their gadgets in a pile in the middle of the table until they had finished the meal? [IV] If anyone picked up their phone, that person would have to pay the whole bill. And so, it is said, the game of 'phone stacking' was born.

<u>The necessity for action</u> like this **highlights** a major problem in today's society: our inability to disconnect from technology. But while Brian's idea deals with the obsession in a social context, measures also need to be taken at home. Some people drop their smartphones into a box the moment they arrive home, which gives them the chance to interact with the people they live with. The fact that the phone cannot be heard - it is on silent - nor seen - the flashing lights are hidden by the box - means that they are no longer tempted to use <u>it</u>.

A less drastic solution is to **ban** electronic devices at certain times of day when the whole family is likely to be together, for example at meal times. This can be hard for everyone, from teenagers desperate to text friends to parents unable to switch off from work. On a normal day, however, dinner takes less than an hour, and <u>the</u>

benefits of exchanging opinions and anecdotes with the rest of the family certainly makes up for the time spent offline.

Taking a break from technology is one thing, but knowing when to turn off a device is another. Time seems to stand still in the virtual world, and before you know it, you find that it is three o'clock in the morning. This is where a digital curfew comes in handy, a set time when all devices must be put away. Evenings without technology are usually nice and peaceful and make a more agreeable end to the day. And then it's time for bed. One of the best ways of ensuring you can sleep at night is to ban electronic devices altogether from the bedroom. Lying next to a machine bursting with information is far from relaxing, and the sounds it emits during the night can easily wake you up. With technology out of the room, a line has been drawn between daytime and sleep time, which enables us to switch off ourselves and drift off to sleep. Question 31. Where in paragraph I does the following sentence best fit? Realising he had to do something to stop this, Brian made a rather daring suggestion. **B.** [II] **C.** [III] **A.** [I] **D.** [IV] Question 32. The phrase "the necessity for action" in paragraph II could be best replaced by _____. **A.** the requirement for change **B.** the importance of communication **C.** the need for technology **D.** the demand for connection Question 33. The word "it" in paragraph 2 refers to_ **B.** phone **C.** light A. fact **D.** box Question 34: According to paragraph 1, Brian Perez was shocked to find that__. **A.** people were willing to remove all their gadgets **B.** the prices for food were too expensive **C.** people were glued to their phones **D.** everyone seemed quiet by nature **Ouestion 35:** Which of the following best summarises the paragraph 3? **A.** Banning electronic devices during family meals helps improve communication and connection. **B.** Parents find it easy to disconnect from work during meal times. C. Family meals should be brief to accommodate everyone's schedules. **D.** Teenagers resist limits on device use but benefit from family interaction. Question 36: The word "ban" in paragraph 3 is OPPOSITE in meaning to _. **B.** forbid **C.** prohibit **D.** prevent A. allow Question 37: Which of the following statements is true, according to the passage? A. People choose not to use their phones at home so that they can talk to other members. **B.** Meal times are the most suitable for the whole family to use phones together. C. Teenagers can find it easier to turn off their phones compared to their parents. **D.** Brian's idea is not new in terms of making people less dependent on technology. Question 38: The word "highlights" in paragraph 2 is closest in meaning to . A. tackles **B.** expects **C.** proposes **D.** emphasizes Question 39. Which of the following best paraphrases the sentence "With technology out of the room, a line has been drawn between daytime and sleep time"? **A.** Removing devices from the bedroom helps distinguish between waking hours and rest. **B.** Keeping technology in the bedroom allows for better sleep quality. **C.** Limiting device usage at night makes it easier to stay awake. **D.** Having devices in the bedroom is beneficial for sleep routines. **Question 40:** Which of the following best summarises the passage? A. Frequent technology use can enhance family communication, but it often leads to disconnection during important moments. **B.** Setting boundaries on device usage is essential for fostering meaningful interactions among family members. C. While technology offers benefits, it can disrupt family life, necessitating limits on its use during shared times. **D.** Families should embrace technology fully, as it provides more opportunities for communication and connection. ------ THE END ------

Read the following passage and mark the letter A, B, C, D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

If you're new to running, or new to marathons, you might be worried about or even <u>fearful</u> of the distance. And these feelings are completely understandable, given the fact that more than 42 kilometres is a very long way. However, more and more people are taking on this challenge every year, and for very good reasons.

Obviously, running such a long distance requires a lot of training, and the more you train, the more your endurance will be **enhanced**. And of course, as you become more physically active, your heart and muscles will be stronger, your blood circulation will improve, and you will most likely get in shape in no time. Additionally, there are also mental and social benefits such as feeling less stressed and more energized as well as having the chance to meet and establish meaningful relationships with other people.

If you think about it, running a marathon is also a chance for personal development. Everyone has at least one fear or insecurity, and for many people, completing a marathon race can seem like an extremely daunting or even impossible task. Of course, it's true that <u>this</u> is a big challenge that requires commitment and perseverance. <u>That being said, every time you step outside out of your comfort zone and accomplish something new, you will grow stronger and become more confident.</u>

Sometimes, you can actually help many others when you run a marathon. Many runners now combine their marathon goal with the goal of helping others by participating in races that raise money for charity. Besides,

running in such marathon races will most likely give you all the motivation you need to get through the exhausting 42-kilometer run. After all, it's quite difficult to quit when you know that you are giving help to people in need.

Question 23: According to the passage, all of the following are benefits of running a marathon EXCEPT

A. You will be able to improve your blood circulation and quickly get in shape.

B. Your endurance will start to improve as you train harder and harder.

C. Your muscles will be strengthened since you are more active.

D. You will feel less stressed when meeting other people.

Question 24: The word "fearful" in paragraph 1 could be best replaced by _____

A. scary B. afraid C. anxious D. frightening

Question 25: The word "enhanced" in paragraph 2 is OPPOSITE in meaning to _____.

A. preserved B. augmented C. weakened D. disseminated

Question 26: The word "this" in paragraph 3 refers to _____.

A. personal development **B.** insecurity **C.** completing a marathon **D.** challenge

Question 27: Which of the following best paraphrases the underlined sentence in paragraph 3?

A. Every time you leave your comfort zone and achieve something new, you will become stronger and more confident.

B. Each time you move outside your comfort zone and accomplish something odd, you will grow more resilient and confident.

C. Whenever you step outside your comfort zone and succeed in something different, you will feel a sense of superiority.

D. Every time you venture beyond your comfort zone and do something unique, you will grow stronger and become less confident.

Question 28: Which of the following is TRUE according to the passage?

A. If you want to run a marathon, you need to commit and persevere.

B. When you complete a marathon, you will no longer have any fear.

C. Most runners will not run marathons that do not raise money at all.

D. You cannot complete a marathon if you do not want to help others.

Question 29: In which paragraph does the writer mention the physical benefits of running?

A. Paragraph 1B. Paragraph 2C. Paragraph 3D. Paragraph 4

Question 30: In which paragraph does the writer discuss personal growth opportunities that come from running a marathon?

A. Paragraph 1B. Paragraph 2C. Paragraph 3D. Paragraph 4Read the following passage about and mark the letter A, B, C, D on your answer sheet to indicate the best
answer to each of the following questions from 31 to 40.D. Paragraph 4

Some people look at an equation and see a bunch of complicated numbers and symbols while others see beauty **[I]**. Now, thanks to a new tool created at Carnegie Mellon University, anyone can now translate the abstractions of mathematics into beautiful and instructive illustrations **[II]**. This exciting new tool is named Penrose after the mathematician Roger Penrose, who is famous for using diagrams and other drawings to communicate complicated mathematical ideas **[III]**. Penrose enables users to create diagrams simply by typing mathematical expressions and letting the software do the drawing **[IV]**.

Unlike a graphing calculator, these aren't <u>restricted</u> to basic functions, but can be complex relationships from any area of mathematics. "Some mathematicians have a talent for drawing beautiful diagrams by hand, but they vanish as soon as the chalkboard is erased," said Keenan Crane, an assistant professor of computer science and robotics. "We want to make this expressive power available to anyone."

Diagrams are often underused in mathematical communication, since producing high-quality illustrations is beyond the skill of many researchers and requires a great deal of time and effort. Penrose addresses these challenges by letting diagram-drawing experts turn their knowledge about creating diagrams into computer *TikTok* @*thptqg2025* **20**

codes so that other users can access this capability using familiar mathematical language and a computer. "We started off by asking: 'How do people translate mathematical ideas into pictures in their head?'" said Katherine Ye, a Ph.D. student in the Computer Science Department who is involved in the development of Penrose. "The <u>secret sauce</u> of our system is to empower people to easily 'explain' this translation process to the computer, so the computer can do all the hard work of actually making the picture."

Once the computer learns how the user wants to see a mathematical object visualized – a vector represented by a little arrow, for instance, or a point represented as a dot – it uses these rules to draw several candidate diagrams. <u>Users can then select and edit the diagrams they want from a gallery of possibilities</u>. A special, simple-to-learn programming language was also developed so that <u>they</u> can easily convey the ideas in their minds to the Penrose system, Crane said. "Mathematicians can get very picky about notations," he explained. "We let them define whatever notation they want, so they can express themselves naturally."

The researchers will present Penrose at the SIGGRAPH 2020 Conference on Computer Graphics and Interactive Techniques, which will be held this July. "Our vision is to be able to dust off an old math textbook from the library, drop it into the computer and get a beautifully illustrated book - that way more people understand," Crane said, noting that Penrose is a first step toward this goal.

Question 31: Where in paragraph 1 does the following sentence best fit? For many, the elegance of mathematical concepts often goes unnoticed amidst the complexity. **C.** [III] **A.** [I] **B.** [II] **D.** [IV] Question 32: The word "restricted" in paragraph 2 is OPPOSITE in meaning to _____ A. contained **B.** expanded **C.** confined **D.** enclosed Question 33: The phrase "secret sauce" in paragraph 3 could be best replaced by _____ **B.** mysterious feature **A.** unexpected benefit **C.** unnatural ability **D.** special element Question 34: According to the passage, which of the following is NOT mentioned as a feature or benefit of the Penrose tool? **A.** It allows users to create diagrams from mathematical expressions. **B.** It can produce high-quality illustrations without requiring advanced drawing skills. **C.** It enables users to communicate mathematical ideas using a programming language. **D.** It can automatically generate solutions to complex mathematical problems. Question 35: The word "they" in paragraph 4 refers to _ **C.** possibilities A. users **B.** diagrams **D.** ideas Question 36: Which of the following best summarizes paragraph 3? **A.** Penrose allows users to create high-quality diagrams quickly without needing artistic skills. **B.** Diagrams in mathematics are often underused due to the time required to create them. C. Penrose enables users to translate mathematical ideas into diagrams using expert knowledge and computer codes. **D.** Katherine Ye discusses the challenges mathematicians face when trying to visualize complex ideas. Question 37: Which of the following is NOT TRUE according to the passage? A. Mathematical diagrams that are drawn by hand on chalkboards are not long-lasting. **B.** Diagrams are usually not widely used to illustrate or communicate mathematical ideas. C. Penrose uses common mathematical rules to draw diagrams for a mathematical object. **D.** Penrose's developers want to make math easier to understand by using illustrations. **Question 38:** Which of the following best paraphrases the underlined sentence in paragraph 4? A. Users can browse and alter the diagrams they like from a variety of choices. **B.** Users can create and adjust the diagrams they desire from a selection of examples. **C.** Users can choose and modify the diagrams they prefer from a collection of options. **D.** Users can view and customize the diagrams they wish to use from an assortment of images. **Question 39:** Which of the following can be inferred from the passage? **A.** Hand-drawn diagrams are not as beautiful and easy to understand as digital diagrams. TikTok @thptqg2025 21

B. In general, mathematicians are not very good at remembering and defining notations.

C. How a mathematical object should be visualized varies from person to person.

D. Almost all people consider traditional math textbooks to be extremely boring.

Question 40: Which of the following best summaries the passage?

A. The development of Penrose by Carnegie Mellon University aims to replace traditional graphing calculators with a tool that can only produce basic mathematical functions.

B. Penrose enables mathematicians to draw by hand and provides them with a programming language to express their ideas naturally.

C. Penrose is a new tool that allows users to create complex mathematical diagrams easily, enhancing mathematical communication and understanding.

D. The researchers at Carnegie Mellon University are focusing on the history of mathematical diagrams and their importance in education.

Read the following passage about wildlife conservation and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

Wildlife conservation is a crucial endeavor that aims to protect animal species and <u>their</u> habitats. This effort is essential for maintaining biodiversity and ensuring the health of our ecosystems. Human activities such as deforestation, pollution, and climate change are some of the primary threats to wildlife. Conservation initiatives strive to mitigate these impacts through various strategies.

One significant aspect of wildlife conservation is the <u>establishment</u> of protected areas. National parks, wildlife reserves, and marine protected areas are created to provide safe havens for endangered species. These areas not only protect wildlife but also offer opportunities for scientific research and eco-tourism, which can benefit local economies.

Another important approach is the reintroduction of species into their natural habitats. This method has been successful in bringing several species back from the brink of extinction. Conservationists carefully monitor and support these reintroduced populations to ensure their survival.

Education and awareness campaigns play a *pivotal* role in wildlife conservation as well. By educating the public about the importance of biodiversity and the threats facing wildlife, these campaigns foster a sense of responsibility and encourage community involvement in conservation efforts.

Technological advancements are also aiding conservation efforts. <u>Innovations such as satellite tracking, DNA</u> analysis, and drone surveillance help researchers gather critical data and monitor wildlife populations more <u>effectively</u>. These tools enable more informed decision-making and efficient conservation strategies.

Question 23. Which of the following is NOT mentioned as a threat to wildlife?

A. Deforestation	B. Pollution	C. Climate change	D. Urbanization		
Question 24. The word "establishment" in paragraph 2 is closest in meaning to:

Question 26. The word "*pivotal''* in paragraph 4 could be best replaced by:

A. trivialB. crucialC. secondaryD. irrelevant

Question 27. Which of the following best paraphrases the underlined sentence in paragraph 5?

A. Technological advancements hinder conservation efforts.

B. There is no alternative to technology in saving wildlife.

C. Technology could be another way to aid conservation efforts.

D. Technology should be the only focus in wildlife conservation.

Question 28. Which of the following is TRUE according to the passage?

A. Only national parks can protect endangered species.

B. Reintroduction of species has never been successful.

C. Education campaigns foster community involvement.

D. Technological advancements are irrelevant to conservation.

Question 29. In which paragraph does the writer mention a present causal relationship?

B. Paragraph 2 **C.** Paragraph 3 **D.** Paragraph 4

Question 30. In which paragraph does the writer explore modern methods for maintaining endangered species?

A. Paragraph 1B. Paragraph 2C. Paragraph 3D. Paragraph 5Read the following passage about wildlife conservation and mark the letter A, B, C, or D on your answer sheet

to indicate the best answer to each of the following questions from 31 to 40.

[I] Wildlife conservation refers to the efforts made to protect and preserve wild animal species and their habitats. [II] It is crucial for maintaining biodiversity, which plays a vital role in ecosystem stability and health (Smith & Jones, 2018). [III] Unfortunately, many species are threatened due to habitat destruction, poaching, and climate change, making conservation efforts more urgent than ever. [IV]

One of the primary reasons for wildlife conservation is the preservation of biodiversity. A diverse range of species contributes to ecosystem services, such as pollination, water purification, and climate regulation. The loss of a single species can disrupt these services and lead to ecological imbalances. For instance, the decline of pollinators like bees has serious implications for food production and agriculture (Global Biodiversity Outlook, 2020).

Moreover, wildlife conservation has significant economic benefits. Many communities depend on ecotourism, which relies on healthy wildlife populations and intact ecosystems. According to a study by the World Wildlife Fund (WWF), ecotourism can generate billions of dollars in revenue, providing jobs and supporting local economies (WWF, 2021). Protecting wildlife not only safeguards natural resources but also creates sustainable livelihoods for local populations.

However, effective wildlife conservation requires a <u>collaborative</u> approach. <u>Governments, non-governmental</u> organizations, and local communities must work together to implement policies and strategies that promote <u>conservation efforts</u>. Community-based conservation initiatives, where local people actively participate in protecting <u>their</u> natural resources, have shown promising results. These initiatives empower communities and ensure that conservation efforts are tailored to local needs and contexts (Bennett & Dearden, 2014).

Question 31. Where in paragraph I does the following sentence best fit?

Conservation measures are essential for the survival of many endangered species.

A. [I]

A. Paragraph 1

B. [II] **C.** [III] **D.** [IV]

Question 32. The phrase "*ecosystem services*" in paragraph 2 could be best replaced by _____.

A. benefits provided by the economy

B. functions that ecosystems perform for humanity

C. services offered by wildlife organizations

D. economic services provided by local communities

Question 33. The word "<u>their</u>" in paragraph 4 refers to _____.

A. ecosystem stability B. biodiversity

C. local people

D. ecological imbalance

Question 34. According to paragraph 2, which of the following is NOT a reason for wildlife conservation?

A. To maintain biodiversity

- **B.** To ensure food production
- C. To promote industrial development
- **D.** To support ecosystem stability

Question 35. Which of the following best summarizes paragraph 3?

- A. Ecotourism negatively affects local economies.
- **B.** Wildlife conservation primarily benefits large corporations.
- C. Protecting wildlife can create economic opportunities for local communities.
- **D.** Wildlife conservation is not economically beneficial.

Question 36. The word "*collaborative*" in paragraph 4 is CLOSEST in meaning to _____.

A. independent B. cooperative C. competitive D. isolated

Question 37. Which of the following is TRUE according to the passage?

A. Only governments are responsible for wildlife conservation.

B. Ecotourism has no connection to wildlife conservation efforts.

C. Community involvement is essential for successful conservation initiatives.

D. Wildlife conservation is solely focused on endangered species.

Question 38. Which of the following best paraphrases the underlined sentence in paragraph 4?

A. Collaborative efforts lead to better conservation policies.

B. Local communities must manage their resources without external help.

C. Wildlife conservation can only succeed with the involvement of different groups.

D. Conservation initiatives do not require local participation.

Question 39. Which of the following can be inferred from the passage?

A. Wildlife conservation is primarily a global issue that does not affect local communities.

B. The economic benefits of conservation are negligible compared to its ecological impact.

C. Without wildlife conservation, both biodiversity and local economies may suffer.

D. Habitat destruction has little impact on wildlife populations.

Question 40. Which of the following best summarizes the passage?

A. Wildlife conservation is essential for protecting species and habitats, maintaining biodiversity, and providing economic benefits through ecotourism, requiring collaborative efforts for effectiveness.

B. The primary focus of wildlife conservation is on endangered species and their immediate habitats.

C. Wildlife conservation is not necessary as most species are thriving in their environments.

D. Ecotourism is the only reason for wildlife conservation efforts globally.

ChatGPT is an advanced language model developed by OpenAI, (18) _____. It utilizes deep learning techniques to generate human-like text responses based on the input it receives. With applications ranging from customer support to content creation, ChatGPT has transformed the way people interact with machines.

(19) _____, ChatGPT can provide users with detailed answers, explanations, and even creative content, depending on the prompts given to it. Its ability to understand context and nuances makes it an invaluable tool for various industries.

Moreover, designed to continuously learn and improve its performance, (20) _____. This feature ensures that it stays relevant and effective in understanding evolving language trends and user expectations. ChatGPT has gained popularity in various applications, (21) _____, enhancing user experience by providing instant responses. As users become more familiar with its capabilities, (22) _____, opening new avenues for innovation and creativity.

Question 18: A. whose utilization for a variety of applications has been available in the realm of text generationB. that has fundamentally altered human interactions with artificial intelligence systems

C. which has been trained on an extensive range of datasets to facilitate natural language

Question 22: A. users consistently express their satisfaction with the AI's capability to respond effectivelyB. the feedback from diverse users illustrates significant enhancements in communication abilitiesC. the demand for more advanced features and functionalities continues to grow

D. sophisticated algorithms have enabled the AI to process language accurately

Read the following passage and mark the letter A, B, C, D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

If you're new to running, or new to marathons, you might be worried about or even <u>fearful</u> of the distance. And these feelings are completely understandable, given the fact that more than 42 kilometres is a very long way. However, more and more people are taking on this challenge every year, and for very good reasons.

Obviously, running such a long distance requires a lot of training, and the more you train, the more your endurance will be **enhanced**. And of course, as you become more physically active, your heart and muscles will be stronger, your blood circulation will improve, and you will most likely get in shape in no time. Additionally, there are also mental and social benefits such as feeling less stressed and more energized as well as having the chance to meet and establish meaningful relationships with other people.

If you think about it, running a marathon is also a chance for personal development. Everyone has at least one fear or insecurity, and for many people, completing a marathon race can seem like an extremely daunting or even impossible task. Of course, it's true that <u>this</u> is a big challenge that requires commitment and perseverance. <u>That being said, every time you step outside out of your comfort zone and accomplish something new, you will grow stronger and become more confident.</u>

Sometimes, you can actually help many others when you run a marathon. Many runners now combine their marathon goal with the goal of helping others by participating in races that raise money for charity. Besides,

running in such marathon races will most likely give you all the motivation you need to get through the exhausting 42-kilometer run. After all, it's quite difficult to quit when you know that you are giving help to people in need.

Question 23: According to the passage, all of the following are benefits of running a marathon EXCEPT

A. You will be able to improve your blood circulation and quickly get in shape.

B. Your endurance will start to improve as you train harder and harder.

C. Your muscles will be strengthened since you are more active.

D. You will feel less stressed when meeting other people.

Question 24: The word "fearful" in paragraph 1 could be best replaced by _____

A. scary B. afraid C. anxious D. frightening

Question 25: The word "enhanced" in paragraph 2 is OPPOSITE in meaning to ______.

A. preservedB. augmentedC. weakenedD. disseminated

Question 26: The word "this" in paragraph 3 refers to______.A. personal development B. insecurityC. completing a marathonD. challenge

Question 27: Which of the following best paraphrases the underlined sentence in paragraph 3?

Question 27: which of the following best paraphrases the underlined sentence in paragraph 3?

A. Every time you leave your comfort zone and achieve something new, you will become stronger and more confident.

B. Each time you move outside your comfort zone and accomplish something odd, you will grow more resilient and confident.

C. Whenever you step outside your comfort zone and succeed in something different, you will feel a sense of superiority.

D. Every time you venture beyond your comfort zone and do something unique, you will grow stronger and become less confident.

Question 28: Which of the following is TRUE according to the passage?

A. If you want to run a marathon, you need to commit and persevere.

B. When you complete a marathon, you will no longer have any fear.

C. Most runners will not run marathons that do not raise money at all.

D. You cannot complete a marathon if you do not want to help others.

B. Paragraph 2

Question 29: In which paragraph does the writer mention the physical benefits of running?

A. Paragraph 1B. Paragraph 2C. Paragraph 3D. Paragraph 4Question 30: In which paragraph does the writer discuss personal growth opportunities that come from running a marathon?

A. Paragraph 1

C. Paragraph 3

D. Paragraph 4

Read the following passage about and mark the letter A, B, C, D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

Some people look at an equation and see a bunch of complicated numbers and symbols while others see beauty **[I]**. Now, thanks to a new tool created at Carnegie Mellon University, anyone can now translate the abstractions of mathematics into beautiful and instructive illustrations **[II]**. This exciting new tool is named Penrose after the mathematician Roger Penrose, who is famous for using diagrams and other drawings to communicate complicated mathematical ideas **[III]**. Penrose enables users to create diagrams simply by typing mathematical expressions and letting the software do the drawing **[IV]**.

Unlike a graphing calculator, these aren't <u>restricted</u> to basic functions, but can be complex relationships from any area of mathematics. "Some mathematicians have a talent for drawing beautiful diagrams by hand, but they vanish as soon as the chalkboard is erased," said Keenan Crane, an assistant professor of computer science and robotics. "We want to make this expressive power available to anyone."

Diagrams are often underused in mathematical communication, since producing high-quality illustrations is beyond the skill of many researchers and requires a great deal of time and effort. Penrose addresses these challenges by letting diagram-drawing experts turn their knowledge about creating diagrams into computer *TikTok @thptqg2025* 32

codes so that other users can access this capability using familiar mathematical language and a computer. "We started off by asking: 'How do people translate mathematical ideas into pictures in their head?'" said Katherine Ye, a Ph.D. student in the Computer Science Department who is involved in the development of Penrose. "The **secret sauce** of our system is to empower people to easily 'explain' this translation process to the computer, so the computer can do all the hard work of actually making the picture."

Once the computer learns how the user wants to see a mathematical object visualized – a vector represented by a little arrow, for instance, or a point represented as a dot – it uses these rules to draw several candidate diagrams. <u>Users can then select and edit the diagrams they want from a gallery of possibilities</u>. A special, simple-to-learn programming language was also developed so that <u>they</u> can easily convey the ideas in their minds to the Penrose system, Crane said. "Mathematicians can get very picky about notations," he explained. "We let them define whatever notation they want, so they can express themselves naturally."

The researchers will present Penrose at the SIGGRAPH 2020 Conference on Computer Graphics and Interactive Techniques, which will be held this July. "Our vision is to be able to dust off an old math textbook from the library, drop it into the computer and get a beautifully illustrated book - that way more people understand," Crane said, noting that Penrose is a first step toward this goal.

Read the following passage about wildlife conservation and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

Wildlife conservation is a crucial endeavor that aims to protect animal species and <u>their</u> habitats. This effort is essential for maintaining biodiversity and ensuring the health of our ecosystems. Human activities such as deforestation, pollution, and climate change are some of the primary threats to wildlife. Conservation initiatives strive to mitigate these impacts through various strategies.

One significant aspect of wildlife conservation is the <u>establishment</u> of protected areas. National parks, wildlife reserves, and marine protected areas are created to provide safe havens for endangered species. These areas not only protect wildlife but also offer opportunities for scientific research and eco-tourism, which can benefit local economies.

Another important approach is the reintroduction of species into their natural habitats. This method has been successful in bringing several species back from the brink of extinction. Conservationists carefully monitor and support these reintroduced populations to ensure their survival.

Education and awareness campaigns play a *pivotal* role in wildlife conservation as well. By educating the public about the importance of biodiversity and the threats facing wildlife, these campaigns foster a sense of responsibility and encourage community involvement in conservation efforts.

Technological advancements are also aiding conservation efforts. <u>Innovations such as satellite tracking, DNA</u> <u>analysis, and drone surveillance help researchers gather critical data and monitor wildlife populations more effectively</u>. These tools enable more informed decision-making and efficient conservation strategies.

Question 23. Which of the following is NOT mentioned as a threat to wildlife?A. DeforestationB. PollutionC. Climate changeD. UrbanizationQuestion 24. The word "establishment" in paragraph 2 is closest in meaning to:

B. destruction **C.** preservation

A. creation *TikTok @thptqg2025* ng to: **D.** alteration Question 25. The word "their" in paragraph 1 refers to: **B.** reintroduced populations **A.** natural habitats **C.** conservationists **D.** species Question 26. The word "*pivotal*" in paragraph 4 could be best replaced by: **B.** crucial A. trivial **C.** secondary **D.** irrelevant Question 27. Which of the following best paraphrases the underlined sentence in paragraph 5? A. Technological advancements hinder conservation efforts. **B.** There is no alternative to technology in saving wildlife. **C.** Technology could be another way to aid conservation efforts. **D.** Technology should be the only focus in wildlife conservation. Question 28. Which of the following is TRUE according to the passage? A. Only national parks can protect endangered species. **B.** Reintroduction of species has never been successful. **C.** Education campaigns foster community involvement. **D.** Technological advancements are irrelevant to conservation. Question 29. In which paragraph does the writer mention a present causal relationship? A. Paragraph 1 **B.** Paragraph 2 **C.** Paragraph 3 **D.** Paragraph 4

Question 30. In which paragraph does the writer explore modern methods for maintaining endangered species?

A. Paragraph 1B. Paragraph 2C. Paragraph 3D. Paragraph 5Read the following passage about wildlife conservation and mark the letter A, B, C, or D on your answer sheetto indicate the best answer to each of the following questions from 31 to 40.

[I] Wildlife conservation refers to the efforts made to protect and preserve wild animal species and their habitats. [II] It is crucial for maintaining biodiversity, which plays a vital role in ecosystem stability and health (Smith & Jones, 2018). [III] Unfortunately, many species are threatened due to habitat destruction, poaching, and climate change, making conservation efforts more urgent than ever. [IV]

One of the primary reasons for wildlife conservation is the preservation of biodiversity. A diverse range of species contributes to ecosystem services, such as pollination, water purification, and climate regulation. The loss of a single species can disrupt these services and lead to ecological imbalances. For instance, the decline of pollinators like bees has serious implications for food production and agriculture (Global Biodiversity Outlook, 2020).

Moreover, wildlife conservation has significant economic benefits. Many communities depend on ecotourism, which relies on healthy wildlife populations and intact ecosystems. According to a study by the World Wildlife Fund (WWF), ecotourism can generate billions of dollars in revenue, providing jobs and supporting local economies (WWF, 2021). Protecting wildlife not only safeguards natural resources but also creates sustainable livelihoods for local populations.

However, effective wildlife conservation requires a <u>collaborative</u> approach. <u>Governments, non-governmental</u> organizations, and local communities must work together to implement policies and strategies that promote <u>conservation efforts</u>. Community-based conservation initiatives, where local people actively participate in protecting <u>their</u> natural resources, have shown promising results. These initiatives empower communities and ensure that conservation efforts are tailored to local needs and contexts (Bennett & Dearden, 2014).
