VIII. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions that follow.

The environment is the natural world dial surrounds us, consisting of the air we breathe, the water we drink, the land we live on, and the ecosystems dial support life. It is essential for the well-being of all living beings on Earth.

One of the issues concerning the environment is climate change. Human activities, such as burning fossil fuels and deforestation, contribute to the release of greenhouse gases, leading to global warming and the change of ecosystems. Climate change has serious consequences, including extreme weather events, sea-level rise, and the loss of biodiversity. Another important aspect of die environment is pollution. Industrial activities, and the use of harmful chemicals contaminate die air, waler, and soil. Pollution has negative effects on human health, wildlife, and the overall balance of ecosystems.

Preserving and protecting the environment requires collective actions. Conservation efforts, such as sustainable resource management and afforestation, play a crucial role in reducing environmental damage. Besides, individual actions, such as reducing waste, and adopting eco-friendly practices, contribute to a more sustainable future. It is essential to raise awareness and educate the public about environmental issues. By this way. individuals can make informed choices and lake steps to minimize their ecological footprint.
