Question 30. What does the notice say?

- A. The restaurant is old.
- B. The restaurant has great food.
- C. Guests don't have to pay for children's meals.
- D. The restaurant is only open at the weekend.

**Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.**

Scientists often divide resources into two groups: renewable and non-renewable. When a resource is used, it takes some times to replace it. If the resource can be replaced quickly and easily, it is called renewable. If it cannot be replaced quickly and easily, it is non-renewable. All fossil fuels

are non-renewable resources. Solar energy, air, and water are usually called renewable because there is an unlimited supply.

However, this definition may change if people are not careful with these resources. The amount of solar energy that reaches the earth depends on the atmosphere. If the atmosphere is polluted, the solar energy that reaches the earth may be dangerous. If humans continue to pollute the air, it will not contain the correct amounts of these gases.

Many resources are limited and non-renewable, and many are in danger of pollution. As a consequence, resources must be conserved and the environment protected. Conservation must become an important part of everyone's life.

Question 31. How many kinds of resources are mentioned in the passage?

- A. 2                      B. 3                      C. 4                      D. 5

Question 32. Non-renewable resources are those which \_\_\_\_\_.

- A. are unlimited    B. can be replaced quickly and easily  
C. take millions of years to replace                      D. are used every day such as solar energy and water

Question 33. Why do we have to conserve resources?

- A. Because many resources are limited and non-renewable  
B. Because conservation plays an important part in everyone's life  
C. To keep the air from being polluted  
D. To make natural resources renewable

Question 34. What will happen if the atmosphere is polluted?

- A. The air won't contain the correct amounts of natural gases  
B. Life won't continue as it does  
C. Renewable resources will soon become non-renewable  
D. All are correct

Question 35. What is the CLOSEST meaning of the word "conserved" in the passage?

- A. Saved                      B. Wasted                      C. Damaged                      D. Polluted

Question 36. What is the OPPOSITE meaning of the word "non-renewable" in the passage?

- A. Limited                      B. Renewable                      C. Polluted                      D. Dangerous

***Four phrases/sentences have been removed from the text below. For each question, mark the letter A, B, C or D on your answer sheet to indicate the correct option that fits each of the numbered blanks from 37 to 40 the most.***

- A. people must learn how to fly  
B. but it will also require people  
C. Instead of driving cars or flying planes  
D. Although they are expensive today

In the future, travel will be faster, smarter, and cleaner. (37) \_\_\_\_\_, people may use flying taxis or underground trains. These vehicles will use renewable energy, which is better for the environment.

Some companies are testing flying cars right now. (38) \_\_\_\_\_, the cost may go down as technology improves. People could travel between cities in just a few minutes.

However, new rules will be needed, and (39) \_\_\_\_\_ or control these vehicles. Future transport is exciting, (40) \_\_\_\_\_ to adapt.

Are you ready for the future of travel?

**Question 37: \_\_\_\_\_ Question 38: \_\_\_\_\_ Question 39: \_\_\_\_\_ Question 40: \_\_\_\_\_**
