

Mark the letter A, B, C, or D on your answer sheet to indicate the word whose underlined part differs from the other three in pronunciation in each of the following questions.

1. A. aged B. wretched C. crooked D. watched
2. A. chaos B. chorus C. chemist D. chopstick

Mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions.

3. The larger the city, _____ the crime rate.
A. highest B. higher C. the highest D. the higher
4. You can't possibly say no to such a wonderful job offer. It's too good to _____.
A. see through B. take over C. turn down D. put up
5. Mr. Timpson's behaviors were inappropriate and fell below the acceptable _____.
A. standardization B. standards C. standardly D. standard-bearer
6. - **Minh:** "What do you think of football?"
- **Trung:** " _____"
A. It's none of my business. B. Well, it's beyond my expectations.
C. Of course, football players are excellent. D. I'm crazy about it.
7. Generally _____, men are more interested in sports than women do.
A. spoken B. speaks C. speaking D. speak
8. My younger brother has played _____ guitar since he was eleven years old.
A. a B. an C. the D. Ø
9. When the taxi _____ tomorrow, we _____ be able to leave for the airport.
A. arrives – would B. arrives – will C. will arrive - will D. arrived – would
10. They will have to study throughout the year, and if they _____ well, they _____ more interested in studying.
A. do – will become B. will do – become C. will do – will become D. do – becomes

Mark the letter A, B, C, or D on your answer sheet to indicate the word that differs from the other three in the position of primary stress in each of the following.

11. A. prefer B. enter C. deter D. infer
 12. A. considerate B. priority C. influential D. experience

Read the following announcement and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 13 to 16.

Environmental Awareness Campaign – "Save Our Planet"

The Green Earth Club is pleased to announce that an Environmental Awareness Campaign will be held (13) _____ this weekend to promote eco-friendly habits among students.

 **17** Date: Sunday, November 16, 2025

 Time: 8:00 a.m. – 11:30 a.m.

 Place: School Hall & Surrounding Areas

During the campaign, participants will take part in (14) _____ activities such as tree planting, poster designing, and a recycling workshop. Winners of each activity will receive certificates and (15) _____ gifts.

All students are welcome to join. Please register at the Student Affairs Office before Friday, November 14.

(16) _____ , contact:

 Ms. Linh – Green Earth Club Advisor |  [greenthefuture@school.edu](mailto:greenfuture@school.edu)

13. A. of B. on C. at D. ∅
 14. A. a good deal of B. many a C. a number of D. much of the
 15. A. friendly-eco B. eco-friendly C. eco-friend D. friendly
 16. A. To learn more about the campaign B. To better know about
 C. For more details about campaign D. For further informations about the campaign

Mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 17 to 18.

(17) _____ Many companies promote their products as “AI-powered” even when the technology behind them is very basic or unrelated to true artificial intelligence. (18) _____ Experts warn that consumers should carefully evaluate AI claims to avoid being misled, and regulations may be needed to prevent deceptive marketing.

17. Choose the TOPIC SENTENCE that can BEGIN the text most appropriately.

- A. AI washing has become a common practice in the technology industry.
- B. Many consumers fully understand the limitations of artificial intelligence.
- C. Companies rarely use AI in their products anymore.
- D. AI is always capable of solving complex human problems.

18. Put the sentences (a–c) in the correct order, then fill in the blank to make a logical text.

- a. Moreover, AI washing can create unrealistic expectations for users and investors, leading to disappointment or wasted resources.
- b. AI washing is the practice of exaggerating or falsely claiming AI capabilities in products or services.
- c. Therefore, consumers may buy products based on misleading claims rather than actual functionality, and this can damage trust in AI technology overall.

- A. b – a – c B. a – b – c C. b – c – a D. c – b – a

Mark the letter A, B, C or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 19 to 24.

THE ETHICAL DILEMMAS OF ARTIFICIAL INTELLIGENCE

The rapid advancement of Artificial Intelligence (AI) presents humanity with unprecedented opportunities and complex ethical challenges. As algorithms become more autonomous, their decision-making processes grow increasingly opaque. This 'black box' phenomenon makes it difficult for human operators to understand how conclusions are reached. (19) _____ Without clear insight, accountability becomes blurred.

The era when AI was purely a subject of science fiction is definitively over. Sophisticated models are now integrated into every sector of society. The widespread implementation of facial recognition technology, for example, has intensified public debate (20) _____ individuals' rights to privacy are often infringed upon without their explicit consent.

The potential for bias in AI systems is another critical concern. If the data used to train an algorithm reflects historical societal prejudices, the AI will simply amplify those biases, (21) _____ perpetuating existing inequalities rather than mitigating them. And if governments are slow to regulate, the technology advances too quickly. Today, there is (22) _____ a widespread public outcry over unfair AI outcomes. This necessitates careful oversight.

Leading tech companies and research institutions are, therefore, urgently setting up ethical frameworks. They are adjusting their development protocols to (23) _____ these risks early in the design phase. They prioritize transparency and fairness in model creation.

Regulators (24) _____ simply observe this technological evolution from the sidelines. They have a duty to establish robust legal safeguards and international standards to ensure that AI development serves the common good. Global cooperation is essential for managing this powerful technology responsibly.

D. Students have efforts to improve their time management during exam period.

Read the following notice or message and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions.

29. What does the notice say?

- A. You must use this voucher to pay for your meals.
- B. You can pay less for your meals with this voucher.
- C. This voucher is used to buy two meals.
- D. Without this voucher, you cannot buy meals.

30. What does the message say?

- A. Sarah is informing you that she's cancelled the meeting and wants to reschedule.
- B. Sarah is telling you to delay the meeting because her train will arrive in 20 minutes.
- C. Sarah is asking you to start the meeting on time and let her join later.
- D. Sarah invites you to take the delayed train with her so you can both arrive late.

Hey! I'm going to be a little late for our meeting.

The train's delayed by about 20 minutes. Please go ahead and start without me, I'll catch up as soon as I arrive.

- Sarah

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

ChatGPT is an AI chatbot that has gained over 100 million users worldwide since its **release** in November 2022. It is a natural language processing tool that creates human-like conversations on various topics, using the internet as a database to create answers.

Deputy Minister of Education and Training, Hoàng Minh Sơn, addressed the attendees of the conference and acknowledged the profound impact of information technology in recent decades. In particular, integrating technology in the education sector has contributed to elevating educational standards and improving pedagogical outcomes. During the COVID-19 period, the deputy minister pointed out that people experienced a huge change from in-person to online learning, thanks to many effective support tools.

With the advent of more **efficient** technology, many people are worried that teachers' roles will become lost. However, Sơn pointed out that technology has helped the education industry make great strides, and the appearance of ChatGPT will be a great help for learners and teachers, he said. Learners will spend less time searching for sources of knowledge, and teachers can use these tools as assistants to build lessons, guide learners and better access learners.

Regarding challenges posed by ChatGPT, Deputy Minister Son said that in history, many new technologies have appeared, and teachers must make good use of these tools. When teachers have tools to help them, they can focus on more important tasks to improve teaching and learning quality. However, Son also emphasised that change in student assessment is needed. As ChatGPT brings benefits in teaching and learning, assessments must change and adjust too.

31. The word **release** in paragraph 2 is **CLOSEST** in meaning to _____.
- A. harm B. review C. issue D. vision
32. Which of the following can be the best title for the passage?
- A. AI and ChatGPT will help make the learning process more intelligent.
B. ChatGPT is a great tool for Vietnamese teachers and learners
C. The teachers' roles will become lost.
D. Education experts will develop many solutions for testing and assessing learners.
33. The word **efficient** in paragraph 4 is **OPPOSITE** in meaning to _____.
- A. effective B. productive C. wasteful D. helpful
34. Which of the following is **NOT** true according to the passage?
- A. Learners will waste more time searching for sources of knowledge thanks to ChatGPT.
B. Teachers can use technological tools such as ChatGPT as assistants to build lessons for students.
C. The appearance of ChatGPT will be a great help for learners and teachers.
D. Technology has helped the education industry make great strides.
35. Why did Deputy Minister Hoàng Minh Sơn emphasize that integrating technology in the education sector has contributed to elevating educational standards?
- A. Because he believes that technology will soon replace traditional teaching methods entirely.
B. Because technology integration has helped the education industry make great strides in recent decades.
C. Because in-person learning during the COVID-19 period failed due to a lack of effective support tools.
D. Because the Ministry of Education and Training is creating a legal system to regulate technology use.

Four phrases/sentences have been removed from the text below. For each question, mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 37 to 40.

Global warming refers to as the gradual increase in the Earth's average temperature due to the accumulation of greenhouse gases in the atmosphere. Human activities (37) _____ The consequences of global warming are far-reaching: melting polar ice caps, rising sea levels, more frequent and severe heatwaves, and disruptions to ecosystems. Addressing this issue requires immediate action from governments, industries, and

individuals, including transitioning to renewable energy, reducing carbon emissions, and promoting sustainable lifestyles. (38) _____

To combat global warming effectively, international agreements, such as the Paris Climate Accord, have aimed to limit global temperature rise by setting targets for reducing greenhouse gas emissions. In addition, innovation in clean energy technologies, (39) _____ Public awareness and education are equally important, as individuals can contribute by adopting sustainable practices such as reducing waste, conserving water, and using energy-efficient appliances. (40) _____

- A. Without coordinated global efforts, the impacts of climate change are expected to intensify, threatening both natural habitats and human societies.
- B. including solar, wind, and electric vehicles, plays a crucial role in mitigating environmental impact.
- C. such as burning fossil fuels, deforestation, and industrial processes, are the primary causes of this phenomenon.
- D. Ultimately, addressing global warming requires a combination of governmental regulation, technological advancement, and personal responsibility to ensure a sustainable future for generations to come.

THE END
