*Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.*

As the name implies green technology is the one that has a "green" purpose. Green inventions are environmentally friendly inventions that often involve: energy **efficiency**, recycling, safety and health concerns, renewable resources, and more. One of the best known examples of green technology would be the solar cell. A solar cell directly **converts** the energy in light into electrical energy. Generating electricity from solar energy means less consumption of fossil fuels, reducing pollution and greenhouse gas emissions. Another simple invention that can be considered green is the reusable water bottle. Drinking lots of water is healthy. Reducing plastic waste is great for the environment. Hence, trendy reusable water bottles that you can refill yourself are health-promoting, eco-friendly, and green. Inventors should know that green inventions and clean technologies are good business. These are fast growing markets with growing profits. Consumers should know that buying green inventions can reduce your energy bill and that green inventions are often safer and healthier products.

**Question 31:** Which can be topic of the passage?

- A. A brief introduction to green technology
- B. A deep investigation into green technology
- C. A comparison between green and traditional technology
- D. The development of green technology

**Question 32:** Which item is NOT MENTIONED as an example of green technology?

- A. Solar cell
- B. Reuseable water bottle
- C. Refillable water bottle
- D. Fossil fuel

**Question 33:** Why should green technology be a good choice for consumer?

- A. Because it can help consumer save money
- B. Because its products are often safer
- C. Because its products are often healthier
- D. All are correct

**Question 34:** Which sentence is NOT TRUE according to the passage?

- A. A solar cell indirectly converts the energy in light into electrical energy
- B. Using solar cell can reduce greenhouse gas emissions.
- C. Green technology is a fast-growing market
- D. Green investments are environmentally friendly

**Question 35:** The word "**convert**" is CLOSEST in meaning to \_\_.

- A. **Change**                                      B. mix                                      C. create                                      D. produce

**Question 36:** The word “**efficiency**” is OPPOSITE in meaning to \_\_.

- A. Wasteful                                      B. effective                                      C. well-done                                      **D. unproductiveness**

*Four phrases/ sentences have been removed from the text below. For each question, mark the letter A, B, C or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 37 to 40.*
