For hundreds of years, one remote hill in the middle of England has hosted one of the weirdest and most hazardous festivals in the world. It's the Cooper's Hill Cheese Rolling Festival. The event is held every year at the end of May. Some people believe that the festival originated from a tradition of rolling burning bundles of sticks down the hill to celebrate the end of winter. Today, the festival has grown into an international event, with over 15,000 participants and spectators from all over the world joining each year.

The rules are simple. A large wheel of cheese is rolled down the hill, and participants chase after it. The first runner to make it to the bottom of the hill is the **winner**. The winner of the race is allowed to keep the cheese as a prize.

Cooper's Hill is only 200 meters long, but it is very steep. As a result, racers do not run down the hill; instead, they usually fall down the hill head over heels.
