Read the following advertisement and mark the letter A, B, C, or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 1 to 6.

Discover Your Potential at The University of Brickerry! The University of Brickerry offers (1) _____ programmes for international students all over the world. Not just a well-established institution for academic improvement with reasonable annual fees, the school provides plenty of facilities and support to help international students quickly fit into a multicultural environment. Moreover, there are plenty of scholarships granted to our students to encourage them (2) _____ a sustainable future.

Have a look at our top chosen programmes by thousands of students every year. **VOCATIONAL PROGRAMMES**

_ skilled workers has increased, our vocational When the demand (3) programmes provide practical courses and hands-on experience for students to master their targeted skills within a period of 12 - 24 months.

UNDERGRADUATE PROGRAMMES

All the courses (4) _ carefully help students acquire academic achievements and qualities for the future careers. Besides, two internship periods equip students with (5)

POST GRADUATE PROGRAMMES

Many students enroll in this programme to (6) their interest in research and to challenge themselves to new opportunities after completing their undergraduate studies. The Unversity of Brickerry understands what it takes to aid students in utilising their full capability.

B. of

B. qualify

B. to building

B. which designed

- Question 1. A. qualification
- Question 2. **A.** to build
- Question 3. A. in
- Question 4. **A.** are designed
- Question 5. A. valuable work experience
 - C. work experience valuable
 - B. do
- **C.** designed B. valuable experience work

C. qualifiedly

C. building

C. for

D. experience valuable work C. make D. put

A. pursue Question 6. Mark the letter A, B, C, or D on your answer sheet to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions from 7 to 11. Question 7.

a. Mark: I agree. The Cycling-to-school programme proposed by Class 12C is going to impress the judges.

b. Nam: It's hard to predict who'll win. Other classes also have very interesting projects.

c. Mark: Tomorrow, we'll get the results of the Green Classroom Competition. Do you think we will win?

B. b – c – a

C. c – a – b

(Adapted from Global Success) **D**. a – c – b

Question 8.

a. Peter: Really? Like what?

b. Jane: Hi Peter, I'm writing an essay about the current problems of growing cities.

c. Peter: Hey Jane, what are you doing?

d. Peter: That's true, and they all need somewhere to live too.

e. Jane: Well, there are many different issues to consider. Growing populations can result in there being too many people in one place, which makes life difficult for residents.

B. b - c - d - a - eA. c-b-a-e-d

C. c - e - d - b - a

(Adapted from Bright) **D.** d - e - a - b - c

Question 9.

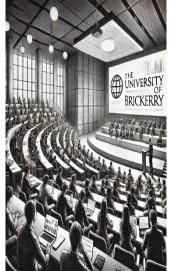

Hi Daisv.

a. Last week, my brother said that he had posted some photos on his blog.

b. I said that he had relied too much on information from social media, and that he shouldn't spend time reading them.

c. My mum says that my brother needs support from me and I shouldn't complain about his dependence on social media.

d. Then he told me that some of his friends had left negative comments on the photos, and he would not forget them. e. What do you think? Write back soon. Eva

Architects must know about building (15) _____ and what they are allowed to build.

Problem-solving Skills

Designing buildings is difficult, and problems can (16) _____ during the process. Architects need to think of creative solutions to those problems.

Knowledge of Popular Styles and Designs

Architects need to make designs that people will really like. (17) _____ doing this, they need to research new and interesting styles.

Do you want to become an architect? Then you will need to develop these things.

Question 12.	A. a few	B. a half	C. a lot of	D. a little
Question 13.	A. detailed	B. advanced	C. outlined	D. intended
Question 14.	A. crews	B. bands	C. gangs	D. teams
Question 15.	A. situations	B. regulations	C. foundations	D. operations
Question 16.	A. deal with	B. bring about	C. come up	D. go off
Question 17.	A. On account of	B. In view of	C. Instead of	D. With a view to
Road the foll	wing nassage about	artificial intelligence	and mark the letter A	B C or D on your answer

Read the following passage about artificial intelligence and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 18 to 25.

Al is affecting our lives. Although it's new, some of the advantages it brings are **<u>impressive</u>**. <u>However</u>, <u>there are potential risks associated with Al that must be considered</u>.

A huge advantage of using AI is that it saves you time by doing tasks for you. AI can write hundreds of lines of code to build a website and help people write business documents and stories in just a few seconds. Another way AI helps students is that it is available 24/7. It's in a way like having your own personal tutor with you. Many students feel shy asking questions in class, but AI allows them to ask freely. AI can be used to fine-tune a search, so it only provides you with the most **relevant** information you need. For example, if you ask it to write an essay about digital marketing and you want more information about digital marketing on Facebook, AI can redo the task, but this time focus only on marketing with Facebook.

However, the use of AI has some certain drawbacks. One of the key concerns is the potential bias in the responses given by AI. In 2022, researchers at Stanford University found that AI generated toxic and biased language when responding to certain topics and phrases. Another potential risk of AI is that it could be used to create fake news, videos or other forms of media. This could be used to spread false information.

In brief, AI is likely to transform the way we interact with technology and save us time and effort in studies and work due to **its** efficiency, but it can also cause potential risks such as discriminatory language or the creation of fake news.

Without antivirus software, teer D. Teens must be so careful that Question 30. A. teens can develop healthier of B. the use of social media in a size. C. safe social media usage is been and the following passage at indicate the best answer to ear an analysis of the set of th	(Adapted from <i>i-Learn Smart World</i>) promes for many professionals might affect their opportunities B. could harm their reputation later in life D. that can make them look like bad people effects of social media on studying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities ia means less time studying, seeing friends, or doing extracurricular activities has should focus more on studying, seeing friends, or doing extracurricular activities are and viruses D. being identified as malware and viruses avoiding bad websites, their computers can be protected. ens may be able to protect their computers from malware and viruses t they never avoid clicking on suspicious links or downloading unsafe files patient habits and use social media safely afe manner by teens is encouraged ecoming so important to teens hsure their safety on social media bout green energy and mark the letter A, B, C or D on your answer sheet to ch of the following questions from 31 to 40. be the impacts of climate change, having a green environment has become
 Question 26. A. have led to negative outco. C. which the consequences of Question 27. A. Researchers have studied the B. The reduction in time spent stic. Too much time on social med D. To improve their lifestyle, teer Question 28. A. is malware and viruses C. of which the concern is malware Question 29. A. Teens should have good antive B. Using antivirus software and at C. Without antivirus software, teer D. Teens must be so careful that Question 30. A. teens can develop healthier of B. the use of social media in a state of social media in a state of social media usage is ber D. these habits allow teens to en Read the following passage at indicate the best answer to ear As we continue to factor increasingly important to the future two particular types of energy at the social media in the social media i	(Adapted from <i>i-Learn Smart World</i>) ormes for many professionals might affect their opportunities B. could harm their reputation later in life D. that can make them look like bad people effects of social media on studying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities are and viruses D. being identified as malware and viruses D. being identified as malware and viruses virus software, and never click on strange links or take files from strangers avoiding bad websites, their computers can be protected. ens may be able to protect their computers from malware and viruses t they never avoid clicking on suspicious links or downloading unsafe files while habits and use social media safely afe manner by teens is encouraged ecoming so important to teens hsure their safety on social media bout green energy and mark the letter A, B, C or D on your answer sheet to ch of the following questions from 31 to 40. ce the impacts of climate change, having a green environment has become ure of our society. To achieve this, the world is shifting towards green energy, and the centre of this movement are solar power and wind power.
Question 26. A. have led to negative outco C. which the consequences of Question 27. A. Researchers have studied the B. The reduction in time spent st C. Too much time on social med D. To improve their lifestyle, teer Question 28. A. is malware and viruses C. of which the concern is malwa Question 29. A. Teens should have good antiv B. Using antivirus software and a C. Without antivirus software, tee D. Teens must be so careful that Question 30. A. teens can develop healthier o B. the use of social media in a st C. safe social media usage is be D. these habits allow teens to en Read the following passage a indicate the best answer to ea As we continue to fac increasingly important to the futu- two particular types of energy at	(Adapted from <i>i-Learn Smart World</i>) provide their opportunities B. could harm their reputation later in life D. that can make them look like bad people effects of social media on studying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities ia means less time studying, seeing friends, or doing extracurricular activities as should focus more on studying, seeing friends, or doing extracurricular activities are and viruses B. that mainly involves malware and viruses D. being identified as malware and viruses D. being identified as malware and viruses avoiding bad websites, their computers can be protected. ens may be able to protect their computers from malware and viruses at they never avoid clicking on suspicious links or downloading unsafe files builts and use social media safely afe manner by teens is encouraged ecoming so important to teens hsure their safety on social media bout green energy and mark the letter A, B, C or D on your answer sheet to ch of the following questions from 31 to 40. but the impacts of climate change, having a green environment has become ure of our society. To achieve this, the world is shifting towards green energy, and
 Question 26. A. have led to negative outco. C. which the consequences of Question 27. A. Researchers have studied the B. The reduction in time spent stic. Too much time on social med D. To improve their lifestyle, teer Question 28. A. is malware and viruses C. of which the concern is malware Question 29. A. Teens should have good antive B. Using antivirus software and at C. Without antivirus software, teer D. Teens must be so careful that Question 30. A. teens can develop healthier of B. the use of social media in a state of social media in a state of social media usage is ber D. these habits allow teens to en Read the following passage at indicate the best answer to ear As we continue to factor increasingly important to the future two particular types of energy at the social media in the social media i	(Adapted from <i>i-Learn Smart World</i>) ormes for many professionals might affect their opportunities B. could harm their reputation later in life D. that can make them look like bad people effects of social media on studying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities are and viruses D. being identified as malware and viruses D. being identified as malware and viruses virus software, and never click on strange links or take files from strangers avoiding bad websites, their computers can be protected. ens may be able to protect their computers from malware and viruses t they never avoid clicking on suspicious links or downloading unsafe files while habits and use social media safely afe manner by teens is encouraged ecoming so important to teens hsure their safety on social media bout green energy and mark the letter A, B, C or D on your answer sheet to ch of the following questions from 31 to 40. ce the impacts of climate change, having a green environment has become ure of our society. To achieve this, the world is shifting towards green energy, and the centre of this movement are solar power and wind power.
Question 26. A. have led to negative outco C. which the consequences of Question 27. A. Researchers have studied the B. The reduction in time spent st C. Too much time on social med D. To improve their lifestyle, teer Question 28. A. is malware and viruses C. of which the concern is malwa Question 29. A. Teens should have good antiv B. Using antivirus software and a C. Without antivirus software, tee D. Teens must be so careful that Question 30. A. teens can develop healthier o B. the use of social media in a st C. safe social media usage is be D. these habits allow teens to en Read the following passage a indicate the best answer to ea As we continue to fac increasingly important to the futu- two particular types of energy at	(Adapted from <i>i-Learn Smart World</i>) mess for many professionals might affect their opportunities effects of social media on studying, seeing friends, or doing extracurricular activities tudying, seeing friends, or doing extracurricular activities ia means less time studying, seeing friends, or doing extracurricular activities hs should focus more on studying, seeing friends, or doing extracurricular activities are and viruses B. that mainly involves malware and viruses D. being identified as malware and viruses virus software, and never click on strange links or take files from strangers avoiding bad websites, their computers can be protected. ens may be able to protect their computers from malware and viruses t they never avoid clicking on suspicious links or downloading unsafe files while habits and use social media safely afe manner by teens is encouraged ecoming so important to teens sure their safety on social media botut green energy and mark the letter A, B, C or D on your answer sheet to ch of the following questions from 31 to 40. ce the impacts of climate change, having a green environment has become ure of our society. To achieve this, the world is shifting towards green energy, and the centre of this movement are solar power and wind power. bout harnessing the energy of the sun by using solar panels to convert sunlight into

C. ordinary

C. related

Question 20. According to paragraph 3, which of the following is NOT mentioned as a disadvantage of AI?

B. Toxic language **C.** Loss of personal information

D. significant

D. available

D. Biased responses

A. special

A. random

A. Spread of fake news

B. amazing

Question 19. The word relevant in paragraph 2 could be best replaced by ____ **B.** confusing

usable electricity. [II] Moreover, solar panels are perfect for installation on a small scale, such as in private homes, since they require very little maintenance and have a long lifespan. [III] However, the ability to generate solar power depends on the time of day and weather conditions. [IV] This means that solar panels are often less useful if they are installed in places where sunny weather is not typical.

Wind power involves **converting the energy** of the wind into electricity using large turbines. Wind power doesn't produce any greenhouse gases, but it is not ideal for private use since turbines require consistent care. However, wind farms can be installed on a large scale and are able to produce electricity continuously regardless of the time of day. This means that if there were more investments in wind power, it could be a viable way to provide energy for major cities and even for whole regions.

Wind and solar power contribute significantly to a green environment by reducing our reliance on fossil fuels, helping us cut down on pollution and slow climate change. Additionally, using renewable energy sources helps promote spending on sustainable development by creating new career opportunities in the green energy sector.

For now, the biggest challenge of adopting green energy is the costs associated with installation and infrastructure, but the benefits unquestionably outweigh the downsides. If we want to stop the climate crisis and create a better and more sustainable future, green energy sources will undoubtedly be the key.

Question 31. Where in paragraph 2 does the following sentence best fit? This highly efficient form of energy produces zero emissions, so it can significantly reduce our carbon footprint.

A. [I]

B. [|||] **C**. [IV] **D**. [11] Question 32. The word they in paragraph 2 refers to ____

C. solar panels **B.** weather conditions A. private homes D. sunny places **Question 33.** The phrase **converting the energy** in paragraph 3 could best be replaced by

A. breaking the energy down **B.** turning the energy into **C.** giving the energy off **D.** saving on the energy Question 34. Which of the following best summarizes paragraph 3?

A. Private wind turbines are the best solution for reducing greenhouse gas emissions.

B. With more investment, wind power can provide reliable, large-scale electricity.

C. The cost of wind energy makes it impractical for urban areas.

D. Wind power produces greenhouse gases and cannot supply cities on a large scale.

Question 35. According to paragraph 4, which of the following is NOT a benefit of using green energy like wind and solar power?

A. green job opportunities

B. mitigation of climate change

C. reduction in fossil fuel consumption **D.** increasing pollution levels Question 36. The word viable in paragraph 3 is OPPOSITE in meaning to _

A. sustainable **B.** impractical **C.** achievable **D.** effective

Question 37. Which of the following is TRUE according to the passage?

A. The costs of installing green energy are minimal and not a challenge.

B. Wind power is more suitable for private homes than solar power.

C. Solar panels are a long-lasting and low-maintenance option for home installations.

D. Solar power can be generated at any time of day or night.

Question 38. Which of the following best paraphrases the underlined sentence in paragraph 5?

A. Were the costs of green energy lower, its adoption would be much easier.

- **B.** Not until green energy becomes completely cost-effective will it replace fossil fuels.
- **C.** The disadvantages of green energy are too great for it to be the key option.

D. Despite high costs, green energy remains the best long-term alternative.

Question 39. Which of the following can be inferred from the passage?

A. The shift to renewable energy is essential for achieving long-term sustainability.

B. The financial burden of green energy outweighs its environmental benefits.

C. Fossil fuels remain the most practical solution for energy production.

D. Solar energy is a more cost-effective alternative to fossil fuels in all cases.

Question 40. Which of the following best summarizes the passage?

A. Green energy, particularly solar and wind power, is key to reducing pollution and combating climate change, though cost and infrastructure remain challenges.

B. While renewable energy helps combat climate change, its effectiveness is limited by weather conditions, maintenance costs, and large-scale implementation challenges.

C. Despite its environmental benefits, green energy is too expensive and unreliable to be a practical solution for large-scale energy needs.

D. Solar and wind power are the only viable solutions to the global energy crisis, as they completely eliminate pollution and greenhouse gases.
