Read the review of a movie. Write T (True), F (False), or NI (Not in the text). (5 questions)

The Dark Forest

I really loved this movie, but it is quite scary! Don't take your little brother or sister to watch it, or even your grandmother!

The whole story happens in a forest, of course, which is very large and very dark. The main characters, Jill and Pete, live in a house in the middle of the forest. The house is old and traditional, but it has lots of strange electronic things to help with cooking and cleaning and so on, so you know that the story happens some time in the future.

The man and woman are very happy at the beginning of the movie, and quiet classical music is playing. But then the electronic things start to get scary. The music changes to loud, heavy metal and ...

I won't tell you the ending of the movie. Go and see it for yourself. I think you will love it!
