II. READING (2 points)

Task 1. Read the text about e-sports. Circle the correct answer A, B, or C.

Millions of people play games for fun. However, there are *professional* gamers. They practice for ten or more hours a day, five or six days a week. They earn money by playing competitive computer games, or e-sports!

Then, are e-sports really sports? Some say no. E-sports players don't need to run, jump, throw or do heavy physical actions. Currently, the UK government classifies e-sports as types of games rather than sports. But others say yes: e-sports are sports. Players do need some physical skills, especially hand-eye coordination, quick reaction. They also need to be accurate and good at timing. In fact, the governments of China and South Korea classify e-sports as sports, and they will be an official medal sport in the Asian Games starting in 2022. How about you? Do you think e-sports are real sports?

1. What is TRUE about professional gamers?

- A. They play games for fun.
- B. Playing games is their job.
- C. They compete with computers.

2. Why do some people think e-sports are not sports?
 - A. Because e-sports players are not physically strong.
 - B. Because the government says that e-sports are games.
 - C. Because e-sports don't require much body movement.
3. What skill does an e-sports player need?
 - A. Throwing a dart accurately.
 - B. Being good at timing.
 - C. Running fast.
4. Which country classifies e-sports as real sports?
 - A. South Korea
 - B. The UK
 - C. Germany

Task 2. Read the description of three robotics competitions. Tick the correct competition.

B.E.S.T Robot Contest

What can high school students do with a box of materials and six weeks? The *B.E.S.T Robot Contest* is a great way to find out. Teams must design a robot that can successfully complete a set of tasks within a time limit, and they'll compete against each other.

F.I.R.S.T: Tech Challenge

Teams for the *F.I.R.S.T: Tech Challenge* can have up to 15 high schoolers. There's a reusable robot kit. They must use this kit to create a robot that will be able to compete in an alliance format challenge. Teams work with adult coaches and mentors to help them.

National Robotics Challenge

The *National Robotics Challenge* doesn't require specific materials or a kit. Students get to build a robot that can compete in challenges like a maze and rescue. Plus, the contest isn't just for school students; college and graduate students can participate, too.

		B.E.S.T Contest	F.I.R.S.T Challenge	National Robotics Challenge
1.	Students use their own materials or robot kits.			
2.	There are coaches to work with each team of students.			
3.	Students design a robot in six weeks.			
4.	There is no age limit in this contest.
