## B. Grammar

### 1. Cấu trúc với V-ing:

- **Công thức:** suggest/advise/recommend + V-ing
- **Ý nghĩa:** Dùng để gợi ý hoặc khuyên chính mình hoặc người khác làm một việc gì đó. Cấu trúc này thường được sử dụng khi muốn nói về hành động một cách chung chung, không chỉ rõ người thực hiện hành động.

Ví dụ:

- **My sister suggested buying a new laptop.**  
(Chị tôi đề nghị mua một chiếc máy tính xách tay mới.)  
→ Trong câu này, người nói không chỉ rõ ai sẽ mua laptop, chỉ có một đề nghị chung chung là việc mua laptop.
- **The doctor advised resting after the surgery.**  
(Bác sĩ khuyên nên nghỉ ngơi sau phẫu thuật.)  
→ Bác sĩ đưa ra lời khuyên về việc nên nghỉ ngơi, không chỉ rõ ai nên nghỉ ngơi.
- **They recommended trying the new restaurant.**  
(Họ đề nghị thử nhà hàng mới.)  
→ Đây là một đề nghị chung về việc thử nhà hàng, không chỉ rõ ai sẽ thử.

### 2. Cấu trúc với mệnh đề "should":

- **Công thức:** suggest/advise/recommend + (that) + somebody + (should) + bare infinitive
- **Ý nghĩa:** Dùng để gợi ý hoặc khuyên ai đó làm một việc cụ thể. Khi dùng cấu trúc này, người nói chỉ rõ đối tượng của hành động.

Ví dụ:

- **My teacher suggested (that) we (should) study harder.**  
(Giáo viên của tôi đề nghị rằng chúng tôi nên học chăm chỉ hơn.)  
→ Ở đây, đối tượng được đề nghị là "we" (chúng tôi), và hành động cụ thể là "study harder" (học chăm chỉ hơn).
- **He advised (that) she (should) take a break.**  
(Anh ấy khuyên cô ấy nên nghỉ ngơi.)  
→ Anh ấy khuyên một người cụ thể ("she" - cô ấy) về việc nghỉ ngơi.
- **They recommended (that) I (should) check my work again.**  
(Họ đề nghị tôi nên kiểm tra lại công việc của mình.)  
→ Đối tượng được khuyên là "I" (tôi), và hành động cụ thể là "check my work again" (kiểm tra lại công việc).

### 3. Lưu ý:

- **Bỏ "should":** Khi sử dụng cấu trúc với mệnh đề "should", bạn có thể bỏ "should" mà nghĩa của câu không thay đổi.
  - Ví dụ: **They recommended (that) I check my work again** có nghĩa tương tự như **They recommended (that) I should check my work again.**
- **Không dùng động từ nguyên thể sau "suggest/advise/recommend":** Không sử dụng động từ nguyên thể có "to" (infinitive) trực tiếp sau các động từ này.
  - **Sai:** He suggested **to buy** a new car.
  - **Đúng:** He suggested **buying** a new car. / He suggested **that we (should) buy** a new car.

**Tổng kết:**

- Sử dụng cấu trúc với V-ing khi muốn đề cập đến hành động một cách chung chung.
- Sử dụng cấu trúc với mệnh đề "should" khi muốn chỉ rõ người thực hiện hành động cụ thể.

VII. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions.

### Exercise 1.

Today, computers are widely used and can be found in a variety of settings, including homes, offices, shops, hospitals, and schools. People rely on computers so heavily that many of them get frustrated and cannot work when computers are “down.” Nowadays, computers are so essential that they are utilised for everything from entertainment to navigation.

Computers of today are much quicker, cheaper, and smaller than those of the past. Many modern computers are so small that they are the size of a deck of cards. Users can work from a variety of settings thanks to notebook computers, also known as “ultra-lights,” and **hand-held** Personal Data Assistants (PDAs). These computers’ ability to connect to several networks allows users to access information from any location with greater ease and control over their time.

Future computers will be smaller and faster than current models. **They** may have “smart” or artificial intelligence features like expert intelligence, neural network pattern recognition, or natural language capabilities, and they may be as small as coins. This feature will make it simpler for users to interface with computers and manage a large amount of data from fax, email, Internet, and phone sources. Wearable computers, DNA computers, virtual reality gadgets, quantum computers, and optical computers are just a few examples of the cutting-edge applications that are emerging today.

1. Why do people become frustrated when computers stop working?

A. Because people are dependent on computers.

B. Because they do not like computers.

C. Because computers are too expensive.

D. Because they find computers too complicated.

2. What is the advantage of using notebook computers and PDAs?

A. They are cheaper than other computers.

B. They are much faster and more powerful than other computers.

C. They are more portable and can be used in different settings.

D. They are easier to connect to the Internet.

3. The word “hand-held” in paragraph 3 is closest in meaning to \_\_\_\_\_.

A. little

B. big

C. short

D. long

4. The word “They” in paragraph 3 refers to \_\_\_\_\_.

A. models | B. future computers | C. language capabilities | D. features

5. What are some examples of cutting-edge applications for computer technology?

A. Wearable computers, DNA computers, and virtual reality gadgets.

B. Wearable robots, DNA robots, and virtual reality games.

C. Wearable cameras, DNA cameras, and virtual reality music.

D. Wearable headphones, DNA headphones, and virtual reality music.

6. What is the purpose of the passage?

A. To inspire people to buy computers.

B. To inform readers about the future of computers and their development.

C. To explain how computers work.

D. To show how people use computers today.

### Exercise 2.

Today, smartphones are everywhere and can be found in many places like homes, offices, shops, and schools. People depend on smartphones so much that they get upset and have trouble when their phones are not working. Smartphones are now used for many things, from checking emails to navigating places.

Modern smartphones are much faster, cheaper, and smaller than older ones. Many smartphones are so small that they can fit in your pocket. With smartwatches and **portable** devices, users can stay connected and access information from almost anywhere easily.

In the future, smartphones will be even smaller and faster. **They** might have advanced features like voice recognition or facial recognition and could be as tiny as a coin. This will make it easier for people to use their phones for managing data from calls, messages, and online activities. New technologies such as smart glasses and foldable phones are already being developed today.

1. Why do people get upset when their smartphones stop working?

- A. Because people depend on smartphones. B. Because they dislike smartphones.  
 C. Because smartphones are too cheap. D. Because they find smartphones too easy to use.
2. What is the advantage of using smartwatches and portable devices?  
 A. They are cheaper than other devices.  
 B. They are much faster and more powerful than other devices.  
 C. They are more portable and can be used in various places.  
 D. They have better battery life.
3. The word "portable" in paragraph 2 is closest in meaning to \_\_\_\_\_.  
 A. convenient B. heavy C. big D. large
4. The word "They" in paragraph 3 refers to \_\_\_\_\_.  
 A. future phones B. advanced features C. new technologies D. smartwatches
5. What are some examples of new technologies for smartphones?  
 A. Smart glasses and foldable phones. B. Smart TVs and foldable tablets.  
 C. Smart speakers and foldable computers. D. Smart refrigerators and foldable laptops.
6. What is the purpose of the passage?  
 A. To encourage people to buy new smartphones.  
 B. To inform readers about the future of smartphones and new technologies.  
 C. To explain how smartphones work.  
 D. To describe how people use smartphones today.

### Exercise 3.

Digital technologies have remarkably changed teenagers' life and work both positively and negatively. According to UNICEF, 71% of 15-24-year-olds are online and one third of Internet users are under 18 years old.

Teenagers benefit from the advances in technology. **They** have various devices like computers, tablets, smartphones, and applications to improve the ways they learn, broaden their relationships, and spend their leisure time. They have more opportunities to learn, get access to information, and use different communication channels inexpensively.

However, they also face many risks. First, there is a concern about children's physical and mental health. Statistics show that teens spend less time doing physical activities, and many more teens suffer from obesity, bone and eye problems. Moreover, teens are also **at risk** of visiting websites which promote self-harm or suicide. In fact, cyber-bullying on the Internet has become more serious than bullying at school.

Schools and parents should guide children so that they can use devices wisely and not become victims of those devices and technologies.

1. The passage is mainly about  
 A. the benefits of digital technologies B. the risks of digital technologies  
 C. the future of digital technologies D. the pros and cons of digital technologies
2. What does the word "They" in paragraph 2 refer to?

 A. in danger B. in fear C. by chance D. on occasion
5. What does the writer say about cyber-bullying?  
 A. It is more frequent now than in the past.  
 B. Bullying in cyber space is more serious than that offline.  
 C. There are more cases of bullying at school than in cyber space.  
 D. Cyber-bullying promotes suicide and self-harm.

### Exercise 4.

You can do a lot of things with this small smartphone! This light, stylish phone has a special self-portrait feature that helps you send great photos of yourself right away. Its camcorder will record important moments, so you can share them with friends. Besides standard text messaging and phone calls, it can keep you connected through emails, video calls, and social networking apps.

This portable music player can carry your music collection everywhere you go and supply your favourite hits at your fingertips. Listen to up to 24 hours of high-quality music wherever you are - on the bus, in the car, or at the gym. The **portable** music player allows you to store up to 5,000 songs and even play games.

This smart window shade doesn't only help you control how much light comes into your house, but **it** also saves money by preventing heat or cold from entering our house. It's an excellent option for those that have trouble controlling the temperature of their houses. It can also give additional privacy to apartments by blocking out light as well as unwanted views.

#### **Introduction to Electric Devices**

Welcome to our workshop on electric devices. Today, we will talk about some common electric devices that we use every day.

First, let's talk about **smartphones**. Smartphones are very popular. They are used for calling people, sending text messages, taking pictures, and looking at the internet. You can also use them to check your email and download apps.

Next, we have **laptops**. Laptops are portable computers. They are useful for working, studying, and watching movies. Laptops have a keyboard and a screen. Most laptops also have a camera and a microphone for video calls.

Another important device is the **television**. Televisions are used to watch shows, movies, and news. Many modern TVs can connect to the internet so you can watch videos from websites like Netflix and YouTube.

Don't forget about **refrigerators**. Refrigerators are important in the kitchen. They keep food fresh and cold. Some refrigerators have a freezer and some even make ice.

Finally, we have **microwaves**. Microwaves are used to heat up and cook food quickly. They are very helpful for people who need to prepare food fast.

That's all for today's talk about electric devices. Remember to use all your electric devices safely and follow the instructions given.
