D. 15% off textbooks

IV. Read the following passage and do as direct. (17-22)

Dear Alex,

It's been too long since we last chatted. How have you been doing in school? I hope the year is going well for you so far.

Today, I wanted to share my future career plans with you. I hope you'll support me and provide some advice too. I've always loved working with numbers and solving complex problems. After thinking it over, I'd like to pursue a career as an accountant. I believe accounting allows me to apply my strong math skills while offering new challenges every day. I'm excited about the prospect of helping individuals and businesses manage their finances and reach their goals. I love not only the analytical nature of accounting but also getting to interact with many different clients. To work toward my career goals, I plan to major in accounting at university and then sit for the CPA exam. With the right education and diligent studying, I know I can pass the exam and start my accounting career.

I'd love to hear about your career interests too. Have you thought about what you might want to do after finishing school?

Thanks for being a great friend all these years. I look forward to your reply!

Stay cool,

John

Câu 17. John wants to become an accountant in the future.

- A. True B. False

Câu 18. He thinks a career in accounting will allow him to use his art skills.

- A. False B. True
