The Snow Monster of the Himalayas

"Have I ever told you about the snow monster of the Himalayas?" asked Grandpa Lee.

"No, you haven't," answered May and Jimmy. "Please tell us!"

"OK. Here is the story. In Nepal, people in the high mountain villages talk about the snow monster named the yeti. The yeti is very big and hairy. It looks like a giant white ape. Some of the villagers have seen the yeti. Some of the villagers haven't seen the yeti, but they have seen its footprints in the snow.

"A man named Eric Shipton was the first person to go to Nepal and photograph the yeti's footprints. In 1951, he hiked through the Himalayas, looking for the snow monster. He did not find the yeti, but he found a very large footprint. The footprint was not like any other animal's footprint.

"Eric Shipton took a photograph of the footprint and sent it to newspapers around the world. The photograph convinced many people that the yeti really existed."

"Grandpa, do you think the footprint really is the yeti's?" asked Jimmy.

"I don't know, Jimmy. I haven't seen the photograph," said Grandpa Lee.

Making Movies

Last month, Jimmy, May, and Sunny visited a big Hollywood movie studio. They met Mr. Big, who is the boss of the studio. He showed them the studio and told them how movies are made.

May said, "In movies, I see actors riding through fires and jumping off tall buildings. They don't really do those things, do they?"

"No," said Mr. Big, "but stunt actors do. Do you know what a stunt actor is?"

Jimmy and May didn't know what a stunt actor was. Mr. Big said, "Come with me and you will see what a stunt actor does."

They walked to where some people were making a new action movie. The director yelled, "Action!" and an actress ran down the street. Two actors were chasing her on motorcycles. The actress jumped into a big, black car. Suddenly, the director yelled, "Cut!" The actress and actors walked to their chairs and sat down.

Making Movies

"Do you know why they stopped?" May asked.

"They stopped because the next scene is very dangerous. The stunt actor must do it," said Mr. Big.

"Does anyone know where Sunny is?" Jimmy asked.

"We can look for him later," said Mr. Big. "Watch this stunt."

A short actor wearing a helmet got into the big, black car. The director yelled, "Action!" The actor drove the car through a big fire, over a bridge, and then into a river. Everyone was quiet.

Finally, the actor swam to the bridge and got out of the water. When he took off his helmet, everyone could see who it was. It was Sunny! Everyone cheered.

Mr. Big said, "That was great, Sunny! I think that you are the best stunt monkey in the world!"

This week in science class Jimmy and May have been learning about inventions. Today Mr. Star, Jimmy and May's science teacher, told the class about some unusual inventions. These are the inventions that Jimmy and May liked the best.

The Adjustable Shoe

This special shoe was invented by a Taiwanese man named Mr. Lin. He made a shoe that could be used by all people, big or small. The shoe is adjustable, which means it can be made bigger or smaller. May liked this invention because she would like to wear her mother's shoes.

The Boat Bike

This interesting bicycle was built by an American man, Robert White. When this bicycle is put in the water, it floats like a surfboard. When it is ridden on the water, it moves like a boat. Jimmy likes this idea. He said, "I could use it to go fishing in the middle of the lake!"

The Shoulder Umbrella

A new kind of umbrella was invented in 1994. It is not held in your hand. It has two supports that sit on your shoulders. The umbrella is on top of these supports. Jimmy and May like this invention a lot. "With a shoulder umbrella," said May, "we could ride our bikes to school in the rain and not get wet!"

Mr. Big, the boss of Hollywood Studios, took Jimmy and May out to dinner at the Hollywood Star Restaurant. Mr. Big told Jimmy and May that he liked Sunny. He asked if Sunny could be in his new movie. Jimmy and May were very surprised and excited. They said, "Of course!"

Suddenly, some Hollywood reporters ran up to the table. They had many questions about Sunny. The first reporter asked when Sunny was coming to Hollywood. The second reporter asked if Sunny's movie would be a love story. The third reporter asked if Sunny would do any dangerous stunts. The fourth one asked who Sunny's co-star would be.

"Wait a minute! Wait a minute!" said Mr. Big. "We have to talk to Sunny first and tell him the good news!"

The next day, Mr. Big, Jimmy, May, and, of course, Sunny made a big announcement to all the reporters. Mr. Big told them that Sunny would be the star of a new movie.

"What's it called?" asked the *Hollywood Times* reporter.

"It's called *Sunny in New York*," answered Mr. Big.

"What's it about?" asked the *Movie News* reporter.

"It's about Sunny's adventures in New York," answered Mr. Big.

"That sounds great!" said the reporters. "We can't wait to see it."

Komodo Dragons

The Lee family went to Indonesia for a vacation. Jimmy and May wanted to go to Komodo Island because they wanted to see the Komodo dragons. They are called dragons even though they are really huge lizards.

When they arrived, a tour guide met them and took them around the island. They saw many interesting things, but the most interesting things were the dragons.

"You can get out of the jeep, but don't get too close," the tour guide said.

"Why? Are they dangerous?" asked May.

"They aren't dangerous as long as you don't get too close to them," answered the tour guide. "Komodos don't attack anyone unless they feel frightened."

"We have lizards where I live," Jimmy said, "but they aren't very big."

Komodo Dragons

May pointed to a Komodo that was lying on a big, gray rock.

"How big is that one?" she asked.

"That one weighs about 130 kilograms," said the tour guide. "The largest dragons on the island are 3 meters long and weigh 150 kilograms."

"What a huge lizard!" said Jimmy.

"How amazing!" said May.
