C. There's a school-wide field trip                      D. Exams are being held in the club rooms

**IV. Read the following passage and do as direct. (17-22)**

The universe is a big and mysterious place. There are so many questions we still don't have answers to! One day, our sun will die, but that won't happen for a very long time. Scientists are already thinking about how humans could survive if that happens.

In space, no one can hear you play guitar. That's because sound needs air to travel, and there's no air in space!

We don't know if there's life on Mars or other planets yet, but scientists are always looking for signs. Big meteors hitting Earth are very rare, but it's possible. That's why scientists watch the sky carefully. Believe it or not, the animal that causes the most human deaths is the mosquito!

There are billions and billions of stars and planets in the universe. It's hard to count them all!

**If aliens came to Earth, we don't have an official plan to greet them. But many people have ideas about how we could say hello!**

**The universe is full of amazing things to learn about!**

**Câu 17.** Our sun will die tomorrow.

- A.** True                                      **B.** False

**Câu 18.** Sound can travel in space without air.

- A.** True                                      **B.** False

**Câu 19.** Scientists are certain there is life on Mars.

- A.** True                                      **B.** False

**Câu 20.** The mosquito causes the most human deaths among animals.

- A.** True                                      **B.** False

**Câu 21.** Why do scientists watch the sky carefully?

- A.** To look for alien spaceships                                      **B.** To count all the stars  
**C.** To predict the weather                                      **D.** To watch for potentially dangerous meteors

**Câu 22.** What is true about the universe according to the text?

- A.** We know everything about it                                      **B.** It's small and simple  
**C.** It's easy to count everything in it                                      **D.** It contains billions of stars and planets

**V.**      **Choose the word (A, B, C or D) that best fits the blank space in the following passage. (23-28)**

If you want to stay \_\_\_\_\_ (23) and fit as a teenager, regular exercise is key. Many experts believe that if young people \_\_\_\_\_ (24) for just 30 minutes a day, they would feel much better. For instance, if you went for a jog or a bike ride after school, you might have more energy for homework.

Some say that if schools offered more sports activities, students would be more active. Others think that if parents encouraged their kids to play outside more, it would help \_\_\_\_\_ (25) screen time.

If you don't like traditional sports, there are many \_\_\_\_\_ (26). You could try dancing, skateboarding, or even yoga. If you found an activity you enjoyed, you'd be more likely to stick \_\_\_\_\_ (27) it.

Remember, if you start good habits now, they could last a \_\_\_\_\_ (28). What do you think? If you could choose any sport or exercise to try, what would it be? Even small changes can make a difference. If you move a little more each day, you'll soon feel the benefits!

**Câu 23.** Choose the correct answer.

- A.** healthily                                      **B.** unhealthy                                      **C.** unhealthily                                      **D.** healthy
