Read the following passage about remote work and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 1 to 8.

Working from home has become increasingly common, providing employees with greater flexibility and control over their work environments. Without the need for long commutes, people have more time for family, personal interests, or simply to rest. A personalized workspace at home can also lead to higher productivity, as individuals can **adjust** their surroundings to suit their needs. Many companies now support remote work, recognizing its benefits for both employee well-being and business outcomes.

However, working from home does bring certain challenges. For example, while remote work can boost productivity, some people find it hard to stay focused without the structure of an office setting. There's also a risk of isolation, as virtual meetings don't always fully replace face-to-face interactions. However, companies are increasingly devising creative strategies to **mitigate** these drawbacks, using sophisticated collaboration tools and arranging virtual social activities to preserve a sense of team cohesion.

Another difficulty with working from home is the blurred line between work and personal life. With workspaces merged into the home environment, the temptation to check emails or tackle tasks outside of regular hours can lead to an "always-on" mentality. Setting clear schedules and defining specific working hours is essential to ensure a healthy balance.

Looking forward, remote work is likely to remain a popular choice, supported by ever-advancing technology. Many companies are considering hybrid models, allowing employees to split **their** time between home and office. This flexible approach can balance the productivity of remote work with the social and collaborative benefits of in-person interactions. As remote work continues to evolve, it will reshape traditional work culture, requiring adaptation from both businesses and employees.

Read the following passage about social media and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 26 to 30.

Social media has become very popular. However, it has many risks for teens. This essay will explain the biggest risks of social media and give some ideas on how to avoid them.

One of the biggest things teens need to understand is that the things they post are permanent. If they post on social media today, it could affect their life in the future. Teens may post things (26) _____, and in the future, a company could find these. Many people have lost their jobs because of things they posted years ago, so teens need to be careful what they post now.

The second biggest risk for teens is social media addiction. (27) _____. It can affect their ability to communicate with people, and it also causes their grades to go down. Teenagers should limit their time on social media and spend more time interacting with friends in person.

The last risk I want to talk about (28) _____. Teens need to understand that they can get malware by downloading bad software and get viruses by clicking a link or visiting a bad website on social media. These slow down the computer and can even destroy important files. (29) _____.

In conclusion, we all know that social media is a big part of most teens lives now. It can be interesting and fun, but using it carelessly can also be risky. However, thinking about what they post, spending less time online, and being careful about possible threats, (30) _____.

(Adapted from *i-Learn Smart World*)**Question 26.**
